Ministry of AYUSH
(Ayurveda, Yoga & Naturopathy, Unani, Siddha and Homoeopathy)
Government of India

Considering Indian climatic conditions, the seasons have been classified in to six as Grishma (Summer), Varsha (Rainy), Sharad (Autumn), Hemant (Pre-winter), Shishir (Winter) & Vasanta (Spring) which is based on warmth, cold and rainfall

Uttarayana/Adanakala (Northern solstice)

This period is from mid December to mid June. During this period the body/ immune system declines. The diet and routine activities should be aimed at increasing strength & vigor.

Dakshinayana/Visargakala (Southern solstice)

This period is from mid June to mid December. During this period, the strength & vigor remains enhanced. So food and regimen should be controlled to prevent diseases due to over nutrition.
