MESSAGE

It gives me immense pleasure to note that the Central Council for Research in Ayurvedic Sciences functioning under this Ministry has been immensely contributing to the research and development in the field of Ayurvedic Sciences since last 50 years. Besides generating evidence on classical Ayurveda interventions and approaches and developing new formulations for unmet medical needs, this council has conducted commendable work to preserve the Indian medical heritage through diverse ways and means.

The core contributions in the field of medico-historical and literary research comprise revival and retrieval of manuscripts and rare books, medico-historical studies on Ayurveda, Unani, Siddha, Homeopathy and other medical systems.

Bringing out the rare medical manuscripts and books referred in Drug & Cosmetics Act 1940 into public domain remains as outstanding contributions besides publication of catalogues of unexplored medical manuscripts scattered elsewhere in different libraries of the country.

I am happy to learn that the Council is bringing out a volume on Glimpses of CCRAS Contributions focusing on its contributions since its inception in Medico-historical Studies and Literary Research and I wish all success in the future endeavors.

<u>MESSAGE</u>

I would like to convey my appreciation to Central Council for Research in Ayurvedic Sciences for making outstanding contributions in the field of Medico-Historical Studies and Literature Research focusing not only on Ayurveda, Siddha, Unani and Homeopathy systems, but also emphasizing on Allopathic and other medical systems across the globe.

It is worth to note that the Council has made commendable contributions in reviving and retrieving rare books and manuscripts and publishing them for the use of stakeholders. Few such examples include Bhela Samhita, Chikitsarnava, Charucharya, Rasachandamsu, Rasapradipika, Sahasrayogam and so on most of which are enlisted as referral books under Drugs & Cosmetics Act, immensely help the regulators and pharmaceutical industry.

The cultural heritage of different medical systems need to be scientifically positioned and translated into practices for which it is pivotal to collect, collate, interpret, edit and bring them into public domain in most authentic form.

The contributions of CCRAS in realizing these tasks through conducting several medico-historical studies on medical systems, compilation of biographical indices, bringing out descriptive catalogues etc. Further, I would like to congratulate the Council for bringing out this concise and comprehensive volume for the use of academicians and researchers.

പ്പിന്വതിവും (Rajesh Kotecha)

New Delhi,

Dated: 19th July, 2019

PREFACE

The Central Council for Research in Ayurvedic Sciences (CCRAS) is the apex body in India for the formulation, coordination, development and promotion of research on scientific lines in Ayurveda and Sowa-Rigpa systems of medicine. Literary & Medico-historical Research has been one among the priority areas of research of CCRAS since its inception. These activities include the revival and retrieval of manuscripts and rare books; medico-historical investigations, undertaking Research projects, publication of books, monographs and scientific

journals and more recently, Council has also been involved in the development of information technology based applications for Ayurveda.

Medico-historical and Literary research are important for ancient medical systems like Ayurveda because of the need to preserve the ancient knowledge and to re-represent the knowledge in terms of the needs of the present day in scientific light. Medico-historical research helps to understand how these systems worked in the past and literary research is needed to disseminate the knowledge in the form of publications and also to develop up to date information through analytical studies of the literature. The preservation of the information by digitization of information helps in saving this knowledge for the future.

Even though the Council has taken up and completed a number of works in the field of Medico-historical studies and Literary research, a need was felt to have a ready reckoner to get all this information at one place for the benefit of scholars and researchers. This work entitled 'Glimpses of CCRAS Contributions – Medico-historical and Literary Research' Volume-VII is a comprehensive document which is intended to provide details of the work done by the Council since its inception in the field of Literary Research. Thus, this document will be helpful to those interested to know about the various works undertaken by the Council during the past 50 years along with the requite details and thus will serve as a guiding light undertaking Literary Research in Ayurveda.

Prof. Vaidya K.S. DhimanDirector General

PROLOGUE

The Central Council for Research in Ayurvedic Sciences (CCRAS) was established in 1969 and since its inception, the Council has undertaken number of activities under Medico-Historical & Literary research and Documentation. These activities are undertaken through the Headquarter office of the Council, National Institute of Indian Medical Heritage (NIIMH), Hyderabad (dedicated field institute for these activities) and selected field institute of the Council. The core components of Literary Research include Revival and Retrieval of Manuscripts and

rare books, Medico-historical studies, undertaking research projects, development of medico-historical library at NIIMH, Medico-historical Museum at NIIMH and Publication of books, research papers and journals. Under Literary Research, the Council has also developed many Information Technology based applications.

The Council is putting active efforts to make the knowledge of Ayurveda to the practitioners in various print and electronic forms and the major achievements till date include publication of about 78 books/ monographs which includes translations and critical editions of the texts of Ayurveda based on original manuscripts/ rare books, catalogues/ descriptive catalogues of manuscripts of Ayurveda, Yoga, Unani, Siddha, Sowa-Rigpa etc, books on Basic/ fundamental concepts of Ayurveda, Research databases on Ayurveda, Siddha, other Traditional Medicine systems and other related Sciences, books on technical terminologies in Ayurveda and books based on the outcomes of CCRAS-Intramural Research projects. The most notable achievements also include electronic searchable classical textbooks of Ayurveda, Ayurveda Encyclopedia and web portals such as NAMASTE Portal and AYUSH Research Portal.

This comprehensive document provides details of the work done by the Council in the field of Literary Research. It will be helpful to the readers to know about the various works undertaken during the past 50 years along with the requisite details and thus will serve as a guiding light undertaking Literary Research in Ayurveda.

Dr. N. SrikanthDeputy Director General

EXECUTIVE SUMMARY

Background:

India is a country with a rich cultural and scientific heritage. Various knowledge systems have developed and evolved in the country which has enriched and benefitted the world in numerous ways. Āyurveda, the ancient science of life is also one such contribution, the roots of which can be traced back to the Vedic literature. It is a highly codified system which has been documented in detail by various learned preceptors starting from the era of Caraka and Suśruta upto the modern era. Being a medical science, it has always been a living tradition learnt in the Gurukula where the student learned under the direct supervision of the teacher. With advancement of time, like many other knowledge systems, the knowledge flow of Āyurveda has weakened due to changes in educational system, loss of information in the form of destruction of literature etc. which has led to increasing gap between theory and practice. Still, much of the knowledge was preserved in the form of various palm leaf, paper and other manuscripts available throughout the country which are preserved in various Manuscript libraries and museums. In the present era, Āyurveda is undergoing a new renaissance and there is growing global attention and acceptance. However, there is a real need to protect, preserve, promote and propagate this medical heritage for a better future of the world.

Medico-historical research and Literary research are important components of research in medical systems like Āyurveda which are rooted in history because of the need to preserve the knowledge and to re represent the knowledge in terms of the needs of the present day. Medico-historical research helps to understand how these systems worked in the past and Literary research is needed to disseminate the knowledge in the form of publications and also to develop up to date information through analytical studies of the literature. Apart from these, preservation of the information by digitization of information and saving this knowledge for the future is also an important domain of Literary Research.

The means of attaining knowledge are called as Pramāṇa. Among the various pramāṇa, Āptopadeśa or Śabda pramāṇa (teachings of learned preceptors) are given prime importance in Āyurveda. The ancient literature available are also known by various names such as Āgama, tantra etc. The teachings which are codified and locked in the classical literature are expounded to the learner by a learned preceptor by the use of various Tantrayukti (criteria for critical evaluation of technical texts), which act as the key to the knowledge.

The revival, retrieval and preservation of national medical heritage has great contemporary relevance owing to the fact that much of the valuable information of Ayurveda is preserved in the form of various manuscripts preserved in various manuscript libraries. Since the life of manuscipts are limited, there is need to preserve and digitize them and further take them up for publication in the form of critical editions, transcription, translation and publication to make them available in public domain.

The Central Council for Research in Ayurvedic Sciences (CCRAS) is an autonomous body under the Ministry of AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha and Homeopathy), Government of India. It is an apex body in India for the formulation, coordination, development and promotion of research on scientific lines in Ayurveda and Sowa-Rigpa system of medicine. Literary

Research and Medico-historical Studies are one among the priority areas of research of CCRAS since from its inception. The Literary research program and Documentation is effectively carried through several means viz. revival and retrieval of manuscripts and rare books; medico-historical investigations in AYUSH Systems of Medicine; by undertaking Research projects; maintaining the medico-historical library and medico-historical museum; publication of books, monographs and scientific journals and development of Information technology based applications etc.,

Core components of Medico-historical Research and Documentation

- 1. Revival and Retrieval of Manuscripts and rare books
- 2. Medico-historical studies
- 3. Research Projects
- 4. Medico-historical Library
- 5. Medico-historical Museum
- 6. Publications under Literary Research & Documentation
- 7. Information Technology based applications

Revival and Retrieval of manuscripts and rare books

Under revival and retrieval system of manuscripts and rare books, the Council adopts chiefly two mechanisms:

- 1. Survey, Acquisition, Edit and Publication of books based on manuscripts and rare books.
- 2. Survey, Acquisition, Digitizing and Cataloguing of manuscripts and rare books.

CCRAS has surveyed/ acquired several valuable manuscripts from manuscript repositories, academic institutions, private collections etc. Among the collection of manuscripts, some of the important and unpublished manuscripts are further taken up for editing, transcription, transliteration, translation of the principal text (mūlapāṭha) and there by bringing out the critical editions. As on date, the Council has published 39 books/ works based original manuscripts/ rare books. Out of 39, 16 books are based on manuscripts and 23 on rare books/ books. Among the 39 published works, eleven pertaining to the books listed under First schedule of Drugs & Cosmetics Act 1940.

Council has taken major initiative to create a 'Centralized Digital Repository of Medical Manuscripts of AYUSH Systems of Medicine' with an objective to conserve and preserve rich cultural and medical heritage of India for posterity as well as to provide easy access. As on date, CCRAS has surveyed and digitized more than 5000 Āyurveda, Yoga, Unāni, Siddha, Sowa Rigpa etc., manuscripts/rare books from Odisha, West Bengal, Bihar, Andhra Pradesh, Telangana, Tamil Nadu, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Assam and Jammu & Kashmir (Leh) etc. Out of 5000 collections, more than 4000 manuscripts are digitized and catalogued. The metadata of 2086 Āyurveda, 598 Siddha, 542 Unāni, 628 Sowa-Rigpa, 49 Yoga and 179 other manuscript's under 44 fields and metadata of 1336 rare books under 18 fields is published in nine descriptive catalogues.

Furthermore, CCRAS made continuous efforts to collect, edit and publish Āyurveda books (S. No. 1 to 54d) mentioned under Schedule I of Drugs and Cosmetics Act 1940. By extensive surveys, the Council collected manuscripts and printed books/works of different editors/ publishers/ editions and in different languages pertaining to 49 books out of 55 [excluding Ayurvedic Formulary of India 54a and Ayurvedic Pharmacopoeia of India, Part I and II (54c & 54d)]. Out of 49 books, there are about 200 palm-leaves/ paper manuscripts pertaining to 23 books are retrieved in CCRAS in digitized form (and some manuscripts in physical form) and more than 600 published books pertaining to 49 books are available in printed form.

Medico-historical studies

As on date, Council has published 396 medico-historical studies pertaining to AYUSH Systems of medicine, Modern medicine and works of European writers. These studies include Āyurveda (233 in no.); Unāni (76 in no.); Siddha (28 in no.); Homoeopathy (8 in no.); Yoga & Naturopathy (3 in no.); Modern Medicine (13 in no.); works of European medical writers on drugs and diseases (3 in no.) and bibliography indexes (31 in no.). These studies are focused on the topics like search and collection of information in medical manuscripts/rare books; biographical account of authors/ commentators/ compilers of classical works of AYUSH Systems of Medicine and pioneers in AYUSH; translations of select passages of classical works; medico-historical investigations on drugs and diseases; documentation of health related information from non-classical literature and archaeological and epigraphical sources; lists of medical works, general articles etc., These studies have explored rich literary heritage of AYUSH systems of medicine and provided valuable insight into the medico-historical aspects of AYUSH.

Research Projects

CCRAS has undertaken several research projects and successfully executed in time bound manner. As on date, under Literary Research and Documentation program, Council has taken up 37 research projects which includes Extramural Research projects supported by Ministry of AYUSH (03 in no.); project(s) supported by WHO-India Office (01 in no.); Intramural Research Projects supported under CCRAS- IMR Scheme/ Research Policy (31 in no.) and Collaborative projects (02 in no.). Out of 37 projects, 22 projects are completed and 15 are ongoing. Out of 22 completed projects, 9 are published and remaining is under process of finalization for publication/ under vetting/ under modifications as per expert's comments/ under editing.

Medico-historical Library

A dedicated medico-historical library established at CCRAS-National Institute of Indian Medical Heritage (NIIMH), Hyderabad contains significant collection of manuscripts, rare books and journals on AYUSH systems of Medicine and Biomedicine. Due to the rich and valuable collection of works/ books and journals/ periodicals, CCRAS-NIIMH, Hyderabad often serves as great resource and referral Institute for scholars engaged in the Medico-historical & Literary research in AYUSH Systems of medicine and Biomedicine.

Medico-historical Museum

A medico-historical museum located at CCRAS-National Institute of Indian Medical Heritage (NIIMH), Hyderabad has several exhibits viz., objects, paintings, documents, manuscripts, replica of stone inscription(s) and art works related to the medical history of the AYUSH and Biomedicine.

Publications under Literary Research & Documentation

As on date, the Council has published about 77 books/ monographs under Literary Research & Documentation program. Of which, 39 books/ works pertaining to editing, translation and critical editions of the texts of Āyurveda based on original manuscripts/ rare books; 11 catalogues/ descriptive catalogues of manuscripts of Āyurveda, Yoga, Unāni, Sidha, Sowa-Rigpa etc.; three on Basic/ fundamental concepts of Āyurveda; four on Research databases on Āyurveda, Siddha and Other Traditional Medicine and related Sciences; five on technical terminologies in Āyurveda; six are based on the outcomes of CCRAS-Intramural Research projects and nine are on other related literary works.

It is to make a special mention that the apart from the publication of books and monographs, the Council has brought out the electronic version of important treatises (Samhitā), lexicons/ compendia (Nighaṇṭu) of Āyurveda; Pharamacopoeia and Formulary of Āyurveda and Siddha for easy accessibility and to serve as search tool. All these e books developed by using in house technology. These e books are widely referred by students, research scholars and faculty of Ayurvedic teaching/ Research Institutions.

Further, for the dissemination of research findings of the studies carried out in the Council are being published in three research journals of Council. The journals viz. Journal of Research in Ayurvedic Sciences (JRAS), Journal of Drug Research in Ayurvedic Sciences (JDRAS) and Journal of Indian Medical Heritage (JIMH) publishes research/ review articles primarily focusing on clinical research, drug research and medico-historical research respectively along with other subject areas/ related topics which comes under the scope of the journals. The former two journals (JRAS & JDRAS) are available in electronic version, and the later (JIMH) will be soon available in electronic version.

Information Technology (IT) based applications developed by CCRAS

Considering the importance of Information Technology (IT) in the field of research, several IT based applications are developed by CCRAS which includes: development of e-books for easy accessibility and to serve as search tool; AYUSH research Portal (ARP) to show case the evidence based research data of AYUSH Systems at global level (http://ayushportal.nic.in); Research Management and Information System (RMIS) to provide guidance/ suggestions to M.D./ Ph.D. (Ay.) scholars for conduct of research studies (http://rmis.nic.in); National AYUSH Morbidities and Standardized Terminologies Portal (NAMASTE Portal) for centralized collection of morbidity statistics of various health care providing institutions under the all AYUSH systems spread over the country (http://namstp.ayush.gov. in); Integrative Clinical Decision Support System (ICDSS) for Implementation, sustaining the use of Electronic Medical Record System with Integrated Clinical Decision along with Informatics Module (ICDSS) and Prakriti Assessment Scale (PAS)- a validated approach for the assessment of Prakriti (physical, physiological, psychological and behavioral traits of an individual).

Besides, the Council has also initiated the work of 'Āyurveda Grantha Sammuccaya – Integrated E-Book Portal' which provides effective search options along with mobile application. This Integrated E book portal provides published texts listed under Schedule I of Drugs and Cosmetics Act 1940; other important works of Ayurveda on etio-pathogenesis (nidāna), therapeutics, dietetics, materia medica, Rasaśāstra etc. This portal is first of its kind which provides a single point of access to the all the important works/ texts of Ayurveda.

All the works taken up by the Council under Literary Research & Documentation has received appreciation from academic and scientific communities. Several outcomes of the activities/ research projects are widely referred by the students, scholars, physicians of AYUSH Systems of Medicine, linguistic experts, Indologists etc.,

SUMMARY OF ACHIEVEMENTS

S. No.	Area of focus	Number of studies
1	REVIVAL AND RETRIEVAL OF MEDICAL MANUSCRIPTS AND RAP	RE BOOKS
1.1	Editing, transcription, translation and publication of manuscripts and rare books	39
1.2	Revival and Retrieval of books mentioned under First Schedule of Drugs & Cosmetics Act 1940	50
1.3	Books/works published by the Council based on Original Manuscripts/ Rare books (including ongoing works)	51

CHAPTER 1

GENESIS AND OVERVIEW

Background

The science of Ayurveda has been in vogue in this country from the earliest times and serving the medical needs of most of our people. These systems were developed by ancient scholars on the basis of their own philosophy, oriental methodologies and practices prevalent in that era and have popularized as a system of medicine. The advent of foreign invasions and cross cultural interactions had definite impact on these systems. The beginning of twentieth century saw efforts to revive these systems. The members of the Imperial Legislative Council got the resolution of investigations and recognition of these systems was accepted in the year 1916. The Indian National Congress also passed similar resolution in 1920. This led to establishment to number of colleges of Ayurveda.

In the post-independence era, the efforts to develop research gained momentum. As per recommendation of the various committees, grant-in-aid projects were sanctioned to selected colleges. The Central Council for Ayurvedic Research as an Advisory body was established in 1962 and finally the Central Council for Research in Indian Medicine & Homoeopathy (CCRIM&H) was established in 1969. This Council initiated research programs in the Indian Systems of Medicine & Homoeopathy in different parts of the country and started coordination at the National level for the first time.

The Central Council for Research in Ayurveda & Siddha (CCRAS), an apex body for the formulation, coordination and development of research in Ayurveda & Siddha on scientific lines was established in March 1978 after reorganization of CCRIM&H.

The Central Council for Research in Ayurvedic Sciences is a Registered Society under Societies Registration Act XXI of 1860 on 29.07.2011 (formerly registered as Central Council for Research in Ayurveda and Siddha on 30thMarch, 1978). The Minister of AYUSH is the President of the Governing Body of the Council while the Joint Secretary chairs the Standing Finance Committee. The Scientific/Research programs are supervised by the respective Scientific Advisory Board/Groups chaired by eminent scholars of the system.

Research Areas

The Central Council for Research in Ayurvedic Sciences (CCRAS), an autonomous body under Ministry of AYUSH, Govt. of India is an apex body in India for undertaking, coordinating, formulating, developing and promoting research on scientific lines in Ayurvedic sciences. The activities are carried out through its 31 Institutes/ Centres/ Units located all over India and also through collaborative studies with various Universities, Hospitals and Institutes. The research activities of the Council include Medicinal Plant Research (Medico-ethno Botanical Survey, Pharmacognosy and Tissue culture), Drug Standardization, Pharmacological Research, Clinical Research and Literary Research & Documentation. Besides this, Council has conducting outreach activities viz., Tribal Health Care Research Program (THCRP) under Tribal Sub-Plan, Ayurveda Mobile Health Care Program under Scheduled Castes Sub Plan (SCSP), Ayurvedic Health Centres under North East Plan, Swasthya Rakshana Program (SRP)

and National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Stroke (NPCDCS).

Objectives

- 1. The formulation of aims and patterns of research on scientific lines in Ayurvedic Sciences.
- 2. To undertake any research or other programmes in Ayurvedic sciences.
- 3. The prosecution of and assistance in research, the propagation of knowledge and experimental measures generally in connection with the causation, mode of spread and prevention of diseases.
- 4. To initiate, aid, develop and co-ordinate scientific research in different aspects, fundamental and applied of Ayurvedic sciences and to promote and assist institutions of research for the study of diseases, their prevention, causation and remedy.
- 5. To finance enquiries and researches for the furtherance of objects of the Central Council.
- 6. To exchange information with other institutions, associations and societies interested in the objects similar to those of the Central Council and specially in observation and study of diseases in East and in India in particular.
- 7. To prepare, print, publish and exhibit any papers, posters, pamphlets, periodicals and books for furtherance of the objects of the Central Council and contribute to such literature.
- 8. To issue appeals and make applications for money and funds in furtherance of the objects of the Central Council and to accept for the aforesaid purpose gifts, donations and subscriptions of cash and securities and of any property whether movable or immovable.
- 9. To borrow or raise monies with or without security or on security mortgage charge, hypothecation or pledge of all or any of the immovable or movable properties belonging to the Central Council or in any other manner whatsoever.
- 10. To invest and deal with the funds and monies of the Central Council or entrusted to the Central Council not immediately required in such manner as may from time to time be determined by the Governing Body of the Central Council.
- 11. To permit the funds of the Central Council to be held by the Government of India.
- 12. To acquire and hold, whether temporarily or permanently any movable or immovable property necessary or convenient for the furtherance of the objects of the Central Council.
- 13. To sell, lease, mortgage and exchange, and otherwise transfer any of the properties movable or immovable of the Central Council provided prior approval of the Central Government is obtained for the transfer of immovable property.
- 14. To purchase, construct, maintain and alter any buildings or works necessary or convenient for the purpose of the Central Council.
- 15. To undertake and accept the management of any endowment or trust fund for donation, the

- undertaking or acceptance whereof may seem desirable.
- 16. To offer prizes and grant of scholarships, including travelling scholarships in furtherance of the objects of the Central Council.

- 17. To create administrative, technical and ministerial and other posts under the Society and to make appointments thereto in accordance with the rules and regulations of the Society.
- 18. To establish a provident fund and/or pension fund for the benefit of the Central Council's employees and/or their family members.
- 19. To do all such other lawful things either alone or in conjunction with others as the Central Council may consider necessary or as being incidental or conducive to the attainment of the above objects.
- 20. To undertake R & D Consultancy projects and transfer of patents on drugs and process to industry.
- 21. To undertake R & D projects sponsored by industries in public/private sector.
- 22. To undertake international and interagency collaboration.
- 23. Utilization of results of research conducted and payment of share of royalties/consultancy fees to those who has contributed towards pursuit of such research.
- 24. To enter into arrangements with scientific agencies of other countries for exchange of scientists, study tours, training in specialized areas, conducting joint projects etc.
- 25. To provide technical assistance to Govt./ Private agencies in matters consistent with the activities of the Council.
- 26. To assist Medicinal Plant Board, Government of India in achieving its objectives.
- 27. To constitute small Management Committees consisting of eminent Scientists/ Physicians of local areas to monitor the R & D activities and suggest remedial measures for the improvement of activities of all Central as well as Research Institutes of the Council

CHAPTER 2

REVIVAL & RETRIEVAL OF MEDICAL MANUSCRIPTS AND RAREBOOKS

It is universally accepted that manuscripts constitute one of the most important basic source materials for knowledge in any discipline. Ayurveda, the oldest medical tradition, passed down through generations over centuries as oral tradition, and the rich heritage and intellectual healing practices have been preserved in the form of manuscripts. These manuscripts are scattered in different parts of India and in libraries/ museums around the world which is evident from the different catalogues published from time to time. However, cataloguing of manuscripts is not sufficient to understand the knowledge that is contained in them. Keeping in view of the same, the Central Council for Research in Ayurvedic Sciences (previously known as Central Council for Research in Ayurveda and Siddha), New Delhi seriously pursuing the tasks related to revival and retrieval manuscripts and rare books of Ayurveda, Yoga & Naturopathy, Unani, Siddha, Homoeopathy and Sowa-Rigpa etc. since from its inception.

CCRAS adopts a systematic mechanism for the revival and retrieval of manuscripts and rare books by following means:

- Survey of manuscripts, analyzing the knowledge, editing and publishing manuscripts.
- Systematic survey and study of works in manuscript and printed form to bring out translated and critical editions for wider accessibility.
- Conservation and preservation of manuscripts and books to preserve the rich intellectual heritage of AYUSH Systems of Medicine.
- Digitization of manuscripts for easy access, to maintain a centralized digital repository and to save the manuscripts and rare books to posterity.

The Documentation and Publication Division started at CCRAS (CCRIM&H), New Delhi in the year 1969-70 assisted in different literary research projects by providing source manuscripts/ rare books and other related works. For successful implementation of the task of revival and retrieval of manuscripts/ books, Literary Research Program was initiated in Council from 1970-71 onwards. The Council had established Literary Research Units at Thanjavur, Varanasi, Jamnagar, Lucknow, Aligarh and Palayamkottai under the guidance Padmashri Dr. V. Narayanaswamy, Vd. V.N. Dwivedi, Vd. Haridutta Shastry, Vd. R.R. Pathak, and Vd. A.T. Sharma respectively. These units were successfully engaged in survey and acquisition of ancient medical manuscripts and published them from time to time.

Among the thirty peripheral Institutes functioning under CCRAS, National Institute of Indian Medical Heritage (NIIMH) located at Hyderabad designated as Nodal Institute for Medico-historical and Literary Research. This Institute is actively engaged in the tasks of revival and retrieval of manuscripts and rare books since from its establishment. NIIMH, Hyderabad maintains repository of manuscripts of Ayurveda, Siddha and Unani manuscripts. The collection includes palm-leaf and paper manuscripts in

different languages: Sanskrit, Telugu, Tamil, Malayalam, Urdu, Arabic, Persian etc. The manuscripts are housed in the Institute are periodically subjected to curative and preventive conservation to reduce and prevent the deterioration. These manuscripts are retrieved in digital form too. The Institute has taken up of editing, translation and publication of several books/ works based on original manuscripts and rare books which are published from time to time. Apart from manuscripts, the Institute's library contains rare and valuable collection of books on History of Medicine of different Systems and medical journals. NIIMH, Hyderabad is a great resource Institute for scholars engaged in the Medico-historical & Literary research in AYUSH Systems of medicine as well as Biomedicine.

......

Background and Origin of National Institute of Indian Medical Heritage, Hyderabad^{1,2,3}

NIIMH, Hyderabad has its origin by the recommendation made by Prof. Henry E. Sigerist, the then Director of History of Medicine, Johns Hopkins University, USA. Prof. Henry E. Sigerist made a recommendation to establish 'Department of History of Medicine in India' to the Health Survey and Development Committee (Bhore Committee), constituted by Imperial Government of India in 1943, which was headed by Sir Joseph Bhore.

Based on the committee's recommendation, a special committee headed by Dr. A.L. Mudaliar, the then Vice Chancellor of Madras University was established to identify suitable premises to establish the new institute. Dr. Mudaliar and Major General S.L. Bhatia, the Surgeon General of the composite State of Madras recommended that a Department of History of Medicine be opened in the Andhra Medical College, Visakhapatnam. Thus the 'Department of History of Medicine' was established on 26-09-1956 at Andhra Medical College, Visakhapatnam. Afterwards it was transferred to Hyderabad in the month of December 1956 under the honorary Directorship of Dr. D.V. Subba Reddy.

In 1962, the department shifted to the newly constructed building of the Osmania Medical College, Hyderabad. In view of the national importance of the 'Department of History of Medicine', it was handed over to Indian Council of Medical Research (ICMR) on 14-02-1969 and was renamed as 'Institute of History of Medicine'.

In 1973, the Institute transferred to Central Council for Research in Indian Medicine and Homoeopathy (CCRIM&H) and renamed as 'Indian Institute of History of Medicine' in the 9th Executive Committee of CCRIM&H held on 04-08-1973.

Thereafter, the CCRIM&H bifurcated into four separate Councils and the Institute came under the administrative control of CCRAS from 01-01-1979. Considering the Institute's achievements and capabilities, the Govt. of India has upgraded the Institute as 'National Institute of Indian Medical Heritage' (NIIMH) on 15-12- 2009. Later, NIIMH has shifted to its own building at Gaddiannaram, Hyderabad on 21-02-2013.

³ Abraham DM, Vaz M. The Institute of History of Medicine in Bengaluru: A lost opportunity. The National Medical Journal of India. 2016; 28 (5): 245-249.

Apart from NIIMH-Hyderabad, the Medico-historical and Literary Research works are also carried out at CCRAS Head Quarters, New Delhi; National Research Institute for Sowa-Rigpa, Leh; National Ayurveda Research Institute for Panchakarma, Cheruthuruthy; Regional Ayurveda Research Institute for Metabolic Disorders, Bengaluru; Central Ayurveda Research Institute for Hepatobiliary Disorders, [previously known as Central Research Institute (Ay.)], Bhubaneswar; National Research Institute of Ayurvedic Drug Development [previously Central Research Institute (Ay.)] Kolkata and other designated Institutes.

As a part of revival and retrieval system, CCRAS has surveyed more than 5000 Ayurveda, Yoga, Unani, Siddha, Sowa Rigpa etc., manuscripts/ rare books from the manuscript repositories, state museum(s), academic institutes, libraries, private collections etc., from Odisha, West Bengal, Bihar, Andhra Pradesh, Telangana, Tamil Nadu, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Assam and Jammu & Kashmir (Leh) etc. Out of 5000 collections, more than 4000 manuscripts are digitized; and catalogued and the descriptive catalogues of the same are published.

2.1 Editing, transcription, translation and publication of manuscripts and rare books

CCRAS is actively engaged in the task of publication of manuscripts/ rare books by undertaking of editing, transcription, transliteration, translation of principal text and bringing out critical editions. As on date, there about 39 works are published based on manuscripts and rare books. It is to make a special mention that, apart from Sanskrit manuscripts, the medical manuscripts/ books available in other Indian languages and scripts viz., Cikitsārṇava, Pathyāpathyaviniścaya and Abhinavacintāmaṇi (Oriya); Basavarājīyamu and Rasapradīpikā (Telugu); Sahasrayoga and Vaidyamanoramā (Malayalam); Nānāvidhavaidyam, Netraprakāśikā (Granth) etc., are collected from manuscript repositories/ Institutes and transcribed into *Devanāgar*ī for wider accessibility. Majority of these works were translated into Hindi/English/Tamil by Council and the translated versions facilitated global readership and great acceptance from Ayurvedic fraternity.

Works published based on original manuscripts/ rare books during past fifty years.

2.1.1. Revival and Retrieval of books mentioned under First Schedule of Drugs & Cosmetics Act 1940

Furthermore, CCRAS made continuous efforts to collect, edit and publish Ayurveda 58 books (S. No. 1 to 54d) mentioned under Schedule I of Drugs and Cosmetics Act 1940. By extensive surveys, the Council collected manuscripts and printed books/works of different editors/ publishers/ editions and in different languages pertaining to 49 books out of 55 [excluding Ayurvedic Formulary of India 54a and Ayurvedic Pharmacopoeia of India, Part I and II (54c & 54d)]. Out of 49 books, about 200 palm-leaf/ paper manuscripts pertaining to following 23 books are retrieved in CCRAS in digitized form (and some manuscripts in physical form) and more than 600 published books pertaining to 49 books are available in printed form.

1. Abhinavacintāmaņi	9.	Carakasamhitā	17.	Vaṅgasena
2. Arkaprakāśa	10.	Gadanigraha	18.	Vaidyajīvana
3. Aṣṭāṅgahṛdaya	11.	Rasamañjarī	19.	Viśvanāthacikitsā
4. Āyurvedaprakāśa	12.	Rasapradīpikā	20.	Vṛndacikitsā
5. Basavarājīyam	13.	Rasaratnasamuccaya	21.	Yogacintāmaņi
6. Bhaiṣajyaratnāvalī	14.	Śārṅgadharasaṁhitā	22.	Yogaratnākara
7. Bhāvaprakāśa	15.	Suśrutasamhitā	23.	Yogatarangiṇī
8. Cakradatta	16.	Vaidyacintāmani		

Among these 49 books, the Council has published following 11 books based on original manuscripts/ rare books for wider accessibility and utility. These works are widely referred by students, researchers, practitioners, industries, Indologists, linguistic experts etc.

- 1. Abhinavacintāmaņi [S.No.48]
- 2. Aṣṭāṅgahṛdayam [S.No.4]
- 3. Aṣṭāṅgasaṅgraha [S.No.5]
- 4. Basavarājīyam [S.No.39]
- 5. Bhelasamhitā [S.No.44]
- 6. Cakradatta [S.No.22]- residual portion of Ratnaprabhā
- 7. Rasacandāmśu [S.No.17]
- 8. Rasapradīpikā [S.No.27]
- 9. Sahasrayoga [S.No.28]
- 10. Vaidyaka Cikitsā Sāra [S.No.37]
- 11. Viśvanāthacikitsā (Cikitsārņava) [S.No.45]

English translation of following two books of Schedule I are taken up.

- 1. Vaidyacintāmani [S. No.35]
- 2. Sahasrayoga [S. No. 28]

2.1 Details of books/works published by the Council based on Original Manuscripts/ Rare books:

2.1.1 Cārucaryā by B	2.1.1 Cārucaryā by Bhojarāja					
Source work (Manuscript/Book)	Manuscript. Mss. Acc. No.1011, Osmania University Library, Hyderabad, Telangana.					
Language	Sanskrit.					
Script	Telugu.					
Manuscript material	Palm leaf manuscript.					
Other Manuscripts/	1. Mss. Acc. No. 503, Osmania University Library, Hyderabad.					
collated	 Mss. Acc. No. G 10622, Asiatic Society, Kolkata. Cārucaryā published by Vavilla Ramaswami Shastrulu and Sons, Chennapuri 1949. 					
	4. Cārucaryā published by Arsha Rasayana Shala, Muktyla 1957.					
Outcome	Sanskrit mūlapāṭha (principal text) in Devanāgarī script.					
Status	Published.					
Publication details	Cārucaryā by Bhoja Rāja (A medieval work on personal hygiene), edited by Rama Rao B., Indian Institute of History of Medicine, Central Council for Research in Indian Medicine and Homoeopathy, New Delhi 1974.					

2.1.2 Bhelasamhitā	
Source work (Manuscript/ Book)	Manuscript. Mss. Acc. No.11085/10773, Tanjore Maharaja Serfoji's Sarasvati Mahal Library, Thanjavur, Tamilnadu.
Language	Sanskrit.
Script	Telugu.
Manuscript material	Palm leaf manuscript.
Other Manuscripts/ books referred/col- lated	-
Outcome	Sanskrit mūlapāṭha (principal text) in Devanāgarī script.
Status	Published.
Publication details	Bhelasamhitā (Maharṣipunarvasorātreyasyāntevāsinā Bhelācāryeṇa praṇītā), edited by Venkatasubramania Sastri V.S. and Raja Rajeswara Sharma C., Central Council for Research in Indian Medicine and Homoeopathy, New Delhi 1977.

-

2.1.3 Bheṣajakalpa	
Source work (Manuscript/ Book)	Manuscript. Mss. Acc. No.10755, Tanjore Maharaja Serfoji's Sarasvati Mahal Library, Thanjavur, Tamilnadu.
Language	Sanskrit.
Script	Telugu.
Manuscript material	Palm leaf manuscript.
Other Manuscripts/books referred/collated	Manuscript Acc Nos. 10752, 10753, 10754, 10756, Tanjore Maharaja Serfoji's Sarasvati Mahal Library, Thanjavur.
Outcome	Sanskrit mūlapāṭha (principal text) in Devanāgarī script.
Status	Published.
Publication details	Bhesajakalpaḥ (Bhāradvājapraṇītaḥ), edited by Venkatasubramania Sastri V.S. and Raja Rajeshwara Sharma C., Central Council for Research in Indian Medicine and Homoeopathy, New Delhi 1977.

2.1.4 Aṣṭāṅgasaṅgraha,	Uttarasthāna, Part-II.
Source work (Manuscript/ Book)	Rare book. Aṣṭāṅgasaṅgraha, Maṅgalodaya Publications, Thrissur 1913.
Language	Sanskrit.
Script	Devanāgarī.
Manuscript material	-
Other Manuscripts/ books referred/collated	1. Manuscript Acc. No. 1089, Oriental Research Institute, University of Mysore, Mysore.
	2. Manuscript Acc No. 13070, Government Oriental Manuscript Library, Chennai.
	3. Pandit Rao Jalulkar ed., 1964 and 5 other works.
Outcome	Sanskrit <i>mūlapāṭha</i> (principal text) and Sanskrit commentary in <i>Devanāgarī</i> script- a critical edition.
Status	Published.
Publication details	Aṣṭāṅgasaṅgrahaḥ- Induvyākhyāsahitaḥ, Uttarasthānam, Bhāga-2, edited by Pandit Rao D.V. and Ayodhya Pandey under the guidance of Thakur V.J., edited and coordinated by Pandey V.N., Mahendrapal Simha Arya, Sharma K.D., Ayodhya Pandey, Sharma K.D., and Ganesh Kumar Shukla, Central Council for Research in Ayurveda and Siddha, New Delhi 1988.

2.1.5 Śabdacandrikā by Cakrapāṇidatta	
Source work (Manuscript/ Book)	Manuscript. 1. Indian Office Library, London. 2. Bodellian Library, Oxford.
Language	Sanskrit.
Script	Bengali.
Manuscript material	Palm leaf manuscript.
Other Manuscripts/books referred/collated	
Outcome	Sanskrit mūlapāṭha (principal text) in Devanāgarī script.
Status	Published.
Publication details	Cakrapāṇidatta viracitā - Śabdacandrikā, edited by Priyavrat Sharma, Indian Institute of History of Medicine, Central Council for Research in Ayurveda and Siddha, New Delhi 1988.

2.1.6 Sahasrayoga	
Source work (Manuscript/ Book)	Book.
Language	Sanskrit.
Script	Malayalam.
Manuscript material	-
Other Manuscripts/	1. Sahasrayoga-Vaidyapriya commentary, Velāyuth Kuruca, 1968.
books referred/collated	2. Sahasrayoga- Āṭṭūra Kṛṣṇa Piṣāraṭi, Bhārata Vilāsam Press, Tricura.
	3. Sahasrayoga-Śrīrāma Vilāyaka Press.
	4. Sahasrayoga, Tāmara Kulam Koccuśamkarana Vaidya S.T. Reḍḍiyāra, V.V. Press, Kolalam, 1968.
	5. Sahasrayoga with Sujanapriyā commentary by Kṛṣṇa Vaidyan and Gopāla Pillai, Vairambha Press, Alaghusha.
Outcome	Sanskrit <i>mūlapāṭha</i> (principal text) in <i>Devanāgarī</i> script followed by Hindi translation.
Status	Published.
Publication details	Sahasrayoga, Hindi translation by Pandit Rao D.V. and Sarada Nair, edited by Mahendrapal Simha Arya, Pandey V.N., Mishra S.K. and Sacchidananda Tiwari, Central Council for Research in Ayurveda and Siddha, New Delhi 1990.

2.1.7 Aṣṭāṅgasaṅgrah	a, Sūtra, Śārīra and Nidāna sthāna, Part- IA.
Source work (Manuscript/ Book)	Rare book. 1. Aṣṭāṅgasaṅgrahah tatra Sūtrasthāne, Svasthavṛttam (Hygiene), Rāmacandraśāstrī Kiṁjavaḍekara, Citraśālā Mudraṇālaya, Puṇyapattanam (Poona 2) 1940 for Sūtrasthāna, chapters 1 to 11. 2. Atridev Gupta (ed.) – for Sūtrasthāna, chapters 12-40.
	 Aṣṭāṅgasaṅgrahah tasya Śārīrasthānam, Rāmacandraśāstrī Kimjavaḍekara, Citraśālā Mudraṇālaya, Puṇyapattanam 1938. Aṣṭāṅgasaṅgrahah tasya Nidānasthānam, Rāmacandraśāstrī Kimjavaḍekara, Citraśālā Mudraṇālaya, Puṇyapattanam (Poona 2) 1940.
Language	Sanskrit.
Script	Devanāgarī.
Manuscript material	-

Other Manuscripts/ books referred/collated	1. Manuscript Acc. No. 1089, Oriental Research Institute, University of Mysore, Mysore.
	2. Manuscript Acc No. 13070, Government Oriental Manuscript Library, Chennai.
	3. Pandit Rao Jalulkar ed., 1964 and 5 other works.
Outcome	Sanskrit <i>mūlapāṭha</i> (principal text) and Sanskrit commentary in <i>Devanāgarī</i> script- a critical edition.
Status	Published.
Publication details	Aṣṭāṅgasaṅgrahaḥ - Induvyākhyāsahitaḥ, Sūtraśārīranidānasthānam, Bhāga - Prathama (Ka), edited by Pandit Rao D.V. and Ayodhya Pandey under the guidance of Thakur V.J., edited and coordinated by Pandey V.N., Mahendrapal Simha Arya, Ayodhya Pandey and Sacchidananda Tiwari, Central Council for Research in Ayurveda and Siddha, New Delhi 1991.

2.1.8 Aṣṭāṅgasaṅgraha, Cikitsā and Kalpasthāna, Part- IB.	
Source work (Manuscript/ Book)	Rare book. Aṣṭāṅgasaṅgraha, Maṅgalodaya Publications, Thrissur 1913.
Language	Sanskrit.
Script	Devanāgarī.
Manuscript material	-

2.2 Centralized Digitized Repository of Medical Manuscripts of AYUSH Systems of Medicine.

......

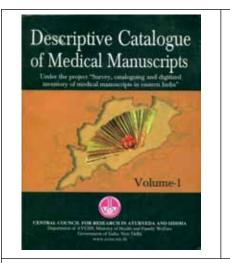

Apart from editing and publication of manuscripts and rare books, the Council has taken major initiative to create a **Centralized Digital Repository of Medical Manuscripts of AYUSH Systems of Medicine** with an objective to conserve and preserve rich cultural and medical heritage of India for posterity as well as to provide easy access.

As on date, CCRAS has surveyed and digitized more than 5000 Ayurveda, Yoga, Unani, Siddha, Sowa Rigpa etc., manuscripts/ rare books from Odisha, West Bengal, Bihar, Andhra Pradesh, Telangana, Tamil Nadu, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Assam and Jammu & Kashmir (Leh) etc. Out of 5000 collections, more than 4000 digitized manuscripts are catalogued and the descriptive catalogues of the same are published.

Under the "Survey, cataloguing and digitized inventory of medical manuscripts" program, about 5000 manuscripts are digitized from manuscript libraries, museums, educational and cultural institutions, private collections etc., across the country. Among the 5000 manuscripts, metadata of 2086 Ayurveda, 598 Siddha, 542 Unani, 628 Sowa-Rigpa, 49 Yoga and 179 other manuscript's prepared under 44 fields. Apart from manuscripts, the metadata of 1336 rare books is presented in 18 fields. The entire data is published in following nine descriptive catalogues.

- 1. Descriptive Catalogue of Medical Manuscripts Under the project "Survey, cataloguing and digitized inventory of medical manuscripts in Eastern India", Volume I (2010).
- 2. Descriptive Catalogue of Medical Manuscripts Under the project "Survey, cataloguing and digitized inventory of medical manuscripts in Eastern India", Volume II (2010).
- 3. Descriptive Catalogue of Medical Manuscripts Under the project "Survey, cataloguing and digitized inventory of medical manuscripts in Eastern India", Volume III (2011).
- 4. Collection and Digitization of Medical Manuscripts from South India, Maharashtra and Madhya Pradesh, Descriptive Catalogue, Part 1 (2013).
- 5. Collection and Digitization of Medical Manuscripts from South India, Maharashtra and Madhya Pradesh, Descriptive Catalogue, Part 2 (2013).
- 6. Descriptive Catalogue of Sowa-Rigpa Manuscripts Under the project "Survey, cataloguing, translation and digitized inventory of Sowa-Rigpa Manuscripts", Volume I (2013).
- 7. Descriptive Catalogue of Sowa-Rigpa Manuscripts Under the project "Survey, cataloguing, translation and digitized inventory of Sowa-Rigpa Manuscripts", Volume II (2013)
- 8. Descriptive Catalogue of Sowa-Rigpa Manuscripts Under the project "Survey, cataloguing, translation and digitized inventory of Sowa-Rigpa Manuscripts", Volume III (2013).
- 9. Descriptive Catalogue of Sowa-Rigpa Manuscripts Under the project "Survey, cataloguing, translation and digitized inventory of Sowa-Rigpa Manuscripts", Volume IV (2016).

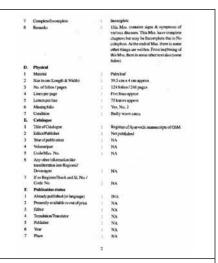

Fig. 3.(a). Sample metadata of *Mss.* in 'Survey, cataloguing and digitized inventory of medical manuscripts in Eastern India; published in three volumes (2010 and 2011).

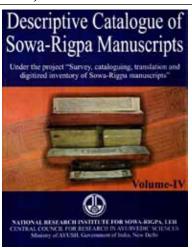

Fig. 3.(b). Sample metadata of *Mss.* in 'Survey, cataloguing, translation and digitized inventory of Sowa-Rigpa Manuscripts; published in four volumes (2013 & 2016).

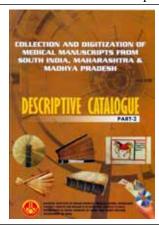

Fig. 3.(c). Sample metadata of *Mss.*/ Rare books in 'Collection and Digitization of Medical Manuscripts from South India, Maharashtra and Madhya Pradesh, Descriptive Catalogue; published in two parts in 2013.

2.3 Development of e-books

Apart from revival and retrieval of manuscripts and rare books, the Council has taken major initiative in bringing out electronic version of important treatises (samhitā), compendia/lexicons (nighaṇṭu) and Pharmacopeias and Formularies of Ayurveda and Siddha. These e books are designed and developed by using in house technology at CCRAS-National Institute of Indian Medical Heritage, Hyderabad. Apart from being used as a search tool, the user can read the texts of Carakasamhitā, Suśrutasamhitā, Mādhavanidānam and 25 Nighaṇṭu in eight Oriental languages. These e books are widely referred by students, research scholars, and faculty of Ayurvedic teaching/ Research Institutions. The list of e books developed as on date are

- 1. The Ayurvedic Pharmacopoeia of India, Part I, Volume I-V (2007).
- 2. The Ayurvedic Formulary of India, Part I and II (2008).
- 3. The Ayurvedic Pharmacopoeia of India, Part II, Volume I (Formulations) (2008).
- 4. The Ayurvedic Pharmacopoeia of India, Part II, Volume II (Formulations) (2008).
- 5. The Siddha Pharmacopoeia of India, Part I, Volume I (2008).
- 6. The Ayurvedic Pharmacopoeia of India, Part I, Volume VI (2010).
- 7. E Carakasamhitā with Cakrapānidatta's commentary (2010).
- 8. E Suśrutasamhitā with Dalhana's & Gayadāsa's commentaries (2010).
- 9. E Mādhavanidānam with Madhukośa and Ātankadarpana commentaries (2012).
- 10. E Nighanțu (collection of 25 Ayurvedic Lexicons) (2012).
- 11. E book- Hand book of Domestic Medicine and Common Ayurvedic Remedies (2012)-English version.
- 12. Ayurveda Encyclopedia (2013).

Fig. 4. e-Books

e-Carakasamhitā with Cakrapāṇidatta's Commentary (2010).

e-Mādhavanidānam with Madhukośa and Ātaṅkadarpaṇa Commentaries (2012).

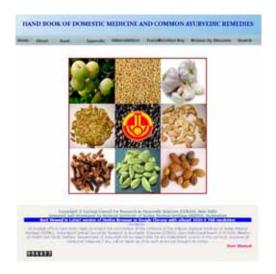

Ayurveda Encyclopedia (2013).

e-Suśrutasamhitā with Palhaṇa's & Gayadāsa's Commentaries (2010).

e-Nighanțu- Collection of 25 Ayurvedic Lexicons (2012).

e-book- Handbook of Domestic Medicine and Common Ayurvedic Remedies (2012).

CHAPTER 3

MEDICO-HISTORICAL RESEARCH

Two main components of the Literary Research & Documentation Program of CCRAS are Medico-historical Research and Literary Research. Till date, about 396 studies pertaining to Ayurveda, Yoga & Naturopathy, Unani, Siddha, Homoeopathy, Modern medicine and works of European writers have been carried out by Council under Medico-historical Research, which have been published from time to time. These studies are broadly classified under following categories:

- 1. Search and collection of information, editing and publication of medical manuscripts/ rare books.
- 2. Biographical studies and articles on authors/compilers/ redactors/ commentators of classical treatises and physicians.
- 3. Translation of selected passages from ancient medical classics.
- 4. Study and collection of medical information from Archaeological and Epigraphical sources and archives.
- 5. Collection/ compilation of medical information from non-medical literature (Veda, Purāṇa, Epics, holy Quran, holy Bible etc.).
- 6. Medico-historical papers on drugs/ diseases.
- 7. Writings on history of medicine (area wise, period wise and theme wise).
- 8. Travelers' accounts on the development of medical science.
- 9. History of Ayurveda/ Unani.
- 10. General articles on Ayurveda/ Unani
- 11. List of medical works in Ayurveda/ Unani.
- 12. Medico-historical studies on Siddha.
- 13. Medico-historical studies on Homoeopathy
- 14. Medico-historical studies on Yoga and Naturopathy.
- 15. Medico-historical studies on Modern Medicine.
- 16. Medico-historical studies by early European medical writers.
- 17. Compilation of bibliographic indexes.

The list of the publications of CCRAS Medico-historical research is as follows:

3.1 Medico-historical studies in Ayurveda

3.1.1. Search and collection of information, editing and publication of rare medical manuscripts/ books:

CHAPTER 4

RESEARCH PROJECTS

Literary Research is one among the priority areas of research of Central Council for Research in Ayurvedic Sciences (CCRAS) since from its inception. The main objectives of Literary research program are:

- 1. To revive and retrieve manuscripts and rare books of AYUSH Systems of medicine.
- 2. To survey, collect, edit and publish medical manuscripts and rare books.
- 3. Medico-historical investigations in Āyurveda.
- 4. Documentation of health related information from non-medical literature and from epigraphical and archaeological evidences.
- 5. To prepare comprehensive monographs on diseases, drugs and fundamental concepts of AYUSH Systems.
- 6. Project writings on history of medical systems of AYUSH, Biomedicine and other Traditional and Complementary Medicine (TCM) practiced elsewhere in India.

A well designed research plan duly reviewed and approved by the subject experts/ Scientific Advisory Group (SAG), its proper execution and periodical monitoring are very much essential to get the expected outcome in a fixed time line of any research project. The Intramural Research (IMR) scheme of CCRAS is one such scheme which allows the systematic approach in evaluating the project since from the approval to its completion and publication. The constant evaluation and monitoring of projects yielded quality research outcome and better applied value. Several literary research projects sponsored under Extramural research scheme of Ministry of AYUSH, Collaborative Projects and CCRAS-Intramural research scheme etc., are being carried out at CCRAS Headquarter, New Delhi and at its designated peripheral institutes viz., National Institute of Indian Medical Heritage (NIIMH), Hyderabad; Regional Ayurveda Research Institute for Metabolic Disorders (RARIMD), Bengaluru; National Ayurveda Research Institute for Panchakarma (NARIP), Cheruthuruthy; National Research Institute for Sowa-Rigpa (NRIS), Leh and other select institutes. The research results and published outcome of these projects are well received and widely referred by academic and scientific groups of AYUSH Systems of Medicine, Sanskrit, Indology and Medical history.

The projects carried out at CCRAS under Literary Research and Documentation program can be broadly categorized as follows:

- 1. Extramural Research Projects (EMRs) supported by Ministry of AYUSH.
- 2. Project (s) supported by WHO-India Office.
- 3. Intramural Research Projects
- 4. Collaborative Research Projects.

The different research projects carried out by Council are detailed here under.

4.1 Research projects supported by Ministry of AYUSH under Extramural Research (EMR) Scheme:

-.....

4.1.1 Survey, cataloguing and di Bengal and Bihar).	4.1.1 Survey, cataloguing and digitized inventory of medical manuscripts in Eastern India (Orissa, West Bengal and Bihar).			
Objective(s)	:	 To collect information and to prepare a descriptive catalogue on maximum number of medical manuscripts available at selected parts of Eastern India which are in the possession of libraries, academic institutions, museums, temples, monasteries etc. To prepare digital library on medical manuscripts. Publication of certain unpublished Ayurveda manuscripts. To prepare a platform for future publication of important / unpublished medical manuscripts. To establish a new idea in the society through Ayurvedic medicine and linking up between old and new technology. 		
Duration	:	3 years.		
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.		
Participating Institute(s) with Principal Investigator	:	Dr. Padhi M.M., Deputy Director General, CCRAS, New Delhi.		
Date of Sanction/Initiation	:	2008.		
Summary	:	A project titled "Survey, cataloguing and digitized inventory of medical manuscript of Eastern India (Odisha, West Bengal and Bihar)" was successfully executed by CCRAS at CCRAS Hqrs, New Delhi under the Acquisition, Cataloging, Digitization and Publication of Text Book & Manuscripts (ACDP)scheme of the then Department of AYUSH and was completed in April 2011. Under this project, 3510 manuscripts/ rare books are catalogued. Of which, 1697 manuscripts/ rare books are digitized which includes 810 from Odisha, 682 from West Bengal and 187 from Bihar. The outcome of the project is published in three volumes and another 11 volumes are		
		ready for publication.		
Remarks, if any	:	-		
Status	:	Work published in three volumes (2010 & 2011).		

4.1.2 Collection and digitization of medical manuscripts from South India, Maharashtra and Madhya			
Pradesh.			
Objective(s)		 To develop centralized digital medical manuscripts repository at NIIMH, Hyderabad by either collecting medical manuscripts or by digitizing medical manuscripts or collecting digitized copies of medical manuscripts from South India, Maharashtra and Madhya Pradesh. To prepare a catalogue with metadata of medical manuscripts. 	
Duration	:	3 years.	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.	
Participating Institute(s) with Principal Investigator	:	Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad.	
Date of Sanction/ Initiation	:	31-05-2008.	
Summary	:	Under this project, total 5416 (2704 medical manuscripts, 1132 rare medical books and 1580 rare medical journals/ periodicals) are digitized from 41 sources which include manuscript repositories, Government Ayurvedic colleges, libraries and individual collections from South India, Maharashtra and Madhya Pradesh. The digitized collections include works on Ayurveda (2722), Siddha (635), Unani (595), Naturopathy (1086), Yoga (57), Homoeopathy (114) and others (207). Descriptive catalogue of 2704 medical manuscripts and 1132 rare medical books prepared covering technical, textual, physical, catalogue,	
		publication, information details along with a brief description of manuscripts in 44 fields and rare books in 18 fields.	
Remarks if any	:	-	
Status	:	Work published in two volumes (2013).	

4.1.3 Ayurveda Encyclopedia.			
Objective(s)	:	To prepare a comprehensive data on Ayurvedic technical terminology by extensive compilation, translation (in Hindi and English) along with authentic references.	
Duration	:	3 years.	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book and e book.	
Participating Institute(s) with Principal Investigator	:	Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad.	
Date of Sanction/Initiation	:	21-08-2008.	

Summary	:	Ayurveda Encyclopedia is an extensive compilation of Ayurvedic terminology from <i>Bṛhattrayī</i> , <i>Laghutrayī</i> with their commentaries, <i>Nighaṇṭu</i> and other works in Ayurveda. Information on 3000 Ayurveda technical terms are presented under 10 fields i.e., <i>anta</i> (end alphabet), <i>liṅga</i> (gender), <i>niṣpatti</i> (<i>dhātu</i> derivation), <i>vyutpatti</i> (derivation), <i>nirukti</i> (etymological derivation), <i>paribhāṣā</i> (definition), <i>vyākhyā</i> (explanation), <i>paryāya</i> (synonyms), <i>vivithārtha</i> (various meanings) and <i>nibandha</i> (brief notes) along with references from more than 100 books/ works.
		Ayurveda Encyclopedia provides through knowledge on correct usage of the Ayurveda terminology along with authentic references.
Remarks if any	:	-
Status	:	Work published in print version in three parts and-e book form (2013).

-.....

4.2 Project (s) supported by WHO-India Office:

4.2.1 Evidence-based of Ayurvedic remedies/ therapies based on research work done for general practitioners.				
Objective(s)	:	To document evidence based studies carried out in select diseases/conditions.		
Duration	:	January- April 2011.		
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.		
Participating Institute(s) with Principal Investigator	:	Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad.		
Date of Sanction/ Initiation	:	15-01-2011.		
Summary		A document prepared based on evidence based studies on Ayurvedic remedies/ therapies on 25 disease conditions based on 106 clinical research studies.		
Remarks if any	:	-		
Status		Document submitted to WHO-India Office (2011).		

4.3 Intramural Research Projects

4.3.1 Exploration of Veterinary Practices in Ayurveda.			
Objective(s)	:	To identify, compile, category and explore Ayurvedic treatments from veterinary manuscripts/ rare books and to provide research leads to scientific community and bring into utility.	
Duration	:	1 year.	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.	

Participating Institute(s) with Principal Investigator	:	Dr. Prasad G.P., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	22-10-2012.
Summary		In the present study, information from 13 rare books/ manuscripts on Ayurvedic veterinary literature in Telugu language is reviewed. Total 322 diseases of animals, which include diseases of cattle, goats/sheep's and horses and 1830 treatments are documented. Telugu dialectic drugs with equivalent English/ chemical/ botanical names; diseases with equivalent English names and metric equivalents for weights and measures provided in the glossary are very informative and useful for scientific community.
Remarks if any	:	-
Status	:	Published (2016).

4.3.2 Eye care in Ayurveda.				
Objective(s)	:	1. To prepare a comprehensive document that presents Ayurvedic understanding of Ophthalmology at a glance along with modern and contemporary advances.		
		2. To explore the potentials of Ayurveda in the management of the eye diseases.		
		3. To document various time tested effective therapies/prescriptions practiced in Ayurvedic eye care hospitals.		
Duration	:	1 year.		
Nature of the Document publication(Book/ Manuscript/ Bibliography)	:	Book.		
Participating Institute(s) with Principal Investigator	:	Dr. Sridevi V., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.		
Date of Sanction/ Initiation	:	27-12-2012.		
Summary	:	The present work documents ophthalmic information from Ayurvedic literature spanning from ancient to modern period. The ophthalmic information from 71 works/texts has been collated and presented comprehensively. About 327 Ayurvedic preparations from different texts are enlisted along with their ingredients and therapeutic indications. The works also provides scientific data of experimental and clinical studies of Ayurvedic drugs and procedures in different eye diseases, which establishes the evidence basis for Ayurvedic ocular therapies. Documentation of treatment protocols/ regimen practiced in different Institutes/ Centres for eye diseases is one of the value addition made in this work.		

		The therapeutic index provided in the document is very informative and useful to academic and scientific community. The work certainly facilitates to understand the evolution and therapeutic potentials of Ayurvedic Ophthalmology and thereby providing better health care services and research leads.

Status	:	Published with the title 'Śālākyatantra-Āyurvedīya Netrarogavijñāna' (2016).

4.3.3 History and Accounts of the	4.3.3 History and Accounts of the literatures written in Unani Medicine from 9th to 12th century AD.				
Objective(s)		To prepare a comprehensive document based on the records on composition of Unani medical literature from 9 th to 12 th century AD.			
Duration	••	1 year.			
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.			
Participating Institute(s) with Principal Investigator	:	Dr. Ashfaque Ahmad, Research Officer (Unani), National Institute of Indian Medical Heritage, Hyderabad.			
Date of Sanction/ Initiation	:	31-10-2012.			
Summary		The work is based on the description of about 200 books written by authors spanning four hundred years from 9th to 12th century AD along with their brief biographical account. Further, the monograph narrates the details of the works of eminent authors of Unani medical literature viz., Firdous al-Hikmat (Paradise of Wisdom) by Tabari (870 AD), Al-Havi (Continens Liber) by Rhazes (925 AD), Canon of Medicine by Avicenna (1037 AD) and works of some lesser known authors like Tadbīr al-Ḥabālā (Obstetrics) by Al-Baladi (991 AD), Amraz al-Uyun (Ophthalmology) by Ibn A'yan Al-Miṣrī (995 AD), and Aqrābādīn (Pharmacy) by Ibn Tilmīdh (1165 AD) etc.			
Remarks if any	:	-			
Status		Published (2016).			

4.3.4 Translation of Vaidyacintāmaņi (from Sanskrit to English).				
Objective(s)		To translate Vaidyacintāmaņi from Sanskrit to English.		
Duration		3 years.		
Nature of the Document publication (Book/ Manuscript/ Bibliography)		Book.		
Participating Institute(s) with Principal Investigator	:	Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad.		
Date of Sanction/ Initiation		31-10-2012.		

Summary	:	Vaidyacintāmaṇi of Indragaṇṭhi Vallabhācārya, a medieval work on Ayurvedic therapeutics composed between 1300-1600 A.D. The treatise consists of 73 prakaraṇa (chapters) and the content of the treatise include etio-pathogenesis and therapy of different diseases (chapter: 3-68), purification of minerals/metal based drugs (chapter 69), toxicology (chapter 70), instruments (chapter 71), classical weights and measures (chapter 72) and technical terms (chapter 73). Vaidyacintāmaṇi is very popular in Andhra and listed under Schedule I of Drugs and Cosmetics Act 1940. The present work Devanāgarī transliteration with English translation and indexing will provide wider dissemination and global readership.
Remarks if any	:	-
Status	:	Under publication.

4.3.5 Evolution of Ayurveda, Siddha and Unani (ASU) drug regulations in India.		
Objective(s)	:	To prepare a comprehensive document on the evolution of drug regulations with respect to ASU drugs in India.
Duration	:	2 years.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Venkateshwarlu B., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	31-10-2012.
Summary		The project is an effort to collect and present the information on evolutionary process of drug regulations on ASU Drugs and to record them at one place as a ready reference material. The document provides information on concerns with need of drug regulations and regulatory mechanisms in ensuring the quality standards of drug and public health; documents published by WHO on Traditional Medicines; regulatory status of herbal medicines in select countries; quality concerns of drugs discussed in texts and works of ancient and medieval period; information from travelers account, epigraphical sources etc.; evolution of Pharmacopoeia and formularies of ASU systems; and single drugs and compound formulations covered under ASU Pharmacopoeia and Formularies are enlisted. The present document helps in understanding the existence and forms of drug regulations in ancient India; social/administrative practices in different time lines; drug regulatory mechanism and their evolution to present times.
Remarks if any	:	-
Status	:	Under vetting.

4.3.6 Translation of Nāvanītaka with critical notes (from Sanskrit to Hindi & English).		
Objective(s)	:	Hindi and English translation of Nāvanītaka with critical notes.
Duration	:	2 years.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Bhuvnesh Kumar Sharma, Research Officer (Ay.), M.S. Regional Ayurveda Research Institute for Endocrine Disorders, Jaipur [Hindi translation]. Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad [English translation].
Date of Sanction/ Initiation	:	01-08-2013.
Summary		Nāvanītaka (The Bower Manuscript) is an important work and unique compilation on formulae. This treatise is believed to be composed during 400 AD and manuscript date palaeographically assigned to a period between 350 AD and 475 AD. Nāvanītaka is an important link in the history of medicine. The work discovered by Major H. Bower in 1890 in a Buddhist <i>stūpa</i> along with an old trade route to China. The language of the treatise is old Sanskrit and freely mixed with Prākṛt. The contents of the treatise are arranged in 7 <i>prakaraṇa</i> (20 chapters). Several formulations mentioned in the treatise are unique to the text. The outcome of the project in the form of Hindi and English translation along with critical notes, indexing of medicinal plants, technical terms and English equivalent terms for <i>Prākṛt</i> terms facilitates wider dissemination and readership. The work would help academicians, physicians, researchers and historians to understand the phase of Ayurveda in early time.
Remarks if any	:	-
Status	:	Under editing.

4.3.7 Sanskrit to English translat	4.3.7 Sanskrit to English translation of "Cakradatta – Ratnaprabhā commentary" (Residual portion).		
Objective(s)	:	Sanskrit to English paraphrasic translation of residual portion of Cakradatta – Ratnaprabhā commentary.	
Duration	:	1 year.	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.	
Participating Institute(s) with Principal Investigator	:	Dr. Bharathi K., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.	
Date of Sanction/ Initiation	:	01-07-2014.	

Summary	:	Translation of Cakradatta - Ratnaprabhā (residual portion) is aimed to translate the Sanskrit <i>mūlapāṭha</i> with commentary in English of eight chapters i.e. from 57-64 chapters (Netrarogacikitsā, Śirorogacikitsā, Strīrogacikitsā, Bālarogacikitsā, Viṣarogacikitsā, Rasādiśodhanamāraṇādhikāra, Śoṇitasrāvādhikāra and Doavivaraṇādhikāra). The work is based on the Cakradatta - Ratnaprabhā (residual portion), edited by P.V. Sharma, published as a special volume of Bulletin of the Indian Institute of History of Medicine by IIMH, Hyderabad in 2003. A manuscript on Cakradatta (BORI. 889 of 1887-97) with <i>Niścalākara</i> commentary, which contains the interpolated portion of the text also used as reference material. As on date, there is no translation work available on Cakradatta – Ratnaprabhā (residual portion) from Sanskrit to Hindi/English/ other regional languages. This work is first of its kind and the outcome of the project definitely facilitates the wider dissemination among the scholars, researchers, academicians of Ayurvedic fraternity.
Remarks if any	:	-
Status	:	Under editing.

4.3.8. Devanāgarī transcription & Sanskrit to English translation of Dravyaguṇa Śataśloki Mss.		
Objective(s)	:	To take up the work of transcription of Dravyaguṇa Śataśloki in Devanāgarī script.
		2. Translation of Dravyaguṇa Śataśloki from Sanskrit to English.
Duration	:	1 year.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Prasad G.P., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	01-07-2014.
Summary	:	Śataślokī by Trimallabhaṭṭa is an important work on Ayurvedic materia medica. The work arranged in 101 verses describing the properties of water, milk, cereals, meat, vegetables, sugarcane products, oils, fruits, condiments, food preparations, fermented products, alcoholic beverages, massage, betel and metals, and mercury under 15 groups. Devanāgarī transcription of 101 verses along with their English translation and critical/ explanatory notes would be helpful to academicians, researchers, Ayurvedic physicians to understand the evolution of Ayurvedic materia medica and unique contributions in the field of dietetics and therapeutics.
Remarks if any	:	-
Status	:	Under editing.

4.3.9 Reappraisal of Ayurvedic objective 'Svasthasya Svāsthya Rakshanam'		
Objective(s)	:	To reappraise <i>Svasthasya svāsthya rakṣaṇam</i> , one of the two goals of Ayurveda by scientific analysis and evidences.
Duration	:	1 year.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	•	Dr. Prasad P.V.V., Assistant Director (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	01-08-2013.
Summary	••	The present work emphasizes the role of āhāra (diet), vihāra (behavior), dinacarya (daily regimen) and rtucarya (seasonal regimen), sadvṛtta (good conduct), vegāvarodha (suppression of urges), intellectual errors etc. in maintaining the positive health. Interpretations are included wherever required/possible along with some of the related research studies also discussed in the document.
Remarks if any	:	-
Status	••	Published (2018).

4.3.10 A critical review of various aspects of <i>Rasa</i> , <i>Guṇa</i> , <i>Vīrya</i> , <i>Vipāka</i> and <i>Prabhāva</i> in Āyurveda w.s.r. to Dravyaguṇa.		
Objective(s)	:	To review critically the importance and rationality of basic concepts on <i>rasa</i> , <i>guṇa</i> , <i>vīrya</i> , <i>vipāka</i> and <i>prabhāva</i> in Āyurveda in scientific lines.
Duration	:	1 year.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Prasad P.V.V., Assistant Director (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	01-08-2013.
Summary	:	The present work includes data of several experimental and clinical studies carried out on the fundamental concepts of Dravyaguṇa i.e. rasa, guṇa, vīrya, vipāka and prabhāva, which establishes the scientific evidence for the concepts.
Remarks if any	:	-
Status	:	Under editing.

4.3.11 Sahasrayoga (Translation from Sanskrit/ Hindi to English).		
Objective	:	Critical edition of Sahasrayoga with transliteration, translation from Sanskrit/Hindi to English.
Duration	:	2 years.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator		Dr. Saketh Ram T., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	••	01-01-2014.
Summary	:	Sahasrayoga is a popular text among the vaidya of Kerala. The work is a collection of medicinal recipes and treatment of certain diseases. It is written in Sanskrit and Malayalam, called Maṇipravāḷam, which strongly indicating the source of the work to Kerala. Many verses are in pure Sanskrit; whereas 129 formulae are written exclusively in Maṇipravāḷam. The book also contains rasayoga like <code>jvarāṅkuṣa-rasa</code> , <code>rāmabāṇarasa</code> , <code>bhūtabhairavarasa</code> , <code>tāmra bhairavaguṭikā</code> etc., The book is listed at First Schedule of Drugs and Cosmetics act 1940 [S. No. 28]. The current translation work is attempted based on Hindi translation of Sahasrayoga published by CCRAS in 1990.
Remarks if any	:	-
Status	••	Under editing.

4.3.12 Integrated Clinical Decision Support System (ICDSS).		
Objective	:	1. Implementation, sustaining the use of Electronic Medical Record System with Integrated Clinical Decision Support (ICDSS-E.H.R.) at all the CCRAS clinical units uniformly.
		 To host an ICDSS Informatics Module (ICDSS-I.M.) to provide standardized Ayurvedic clinical terminology in comparison with WHO: ICD-10 and Standard Treatment Guidelines (STG) in tune with National Health Policy.
Duration	:	3 years.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Dynamic electronic database(s) in the form of web portal.
Participating Institute(s) with Principal Investigator	:	Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad.

Date of Sanction/ Initiation	:	05-11-2014.
Summary	:	The work ICDSS has been conceived to benefit Ayurvedic physicians, researchers and medical students by providing harmonized, standardized easy to record-clinical terminology pertaining to AYUSH morbidity codes in tune with ICD-10/11 and other current medical terminology standards. Further, the platform serves as an authentic clinical reference resource for AYUSH clinical case recording, clinical trial protocol preparation and epidemiological research.
Remarks if any	:	The project has played a vital role in development of National Ayurveda Morbidity Codes and Standardized Ayurveda Terminologies which has been launched in the form of National AYUSH Morbidity and Standardized Terminologies Portal (NAMSTP) by Hon'ble PM Sh. Narendra Modi on 17-10-2017 (Ayurveda Day) during the inaugural function of All India Institute of Ayurveda (AIIA), New Delhi. The portal is renamed as National AYUSH Morbidity And Standardized Terminologies Electronic Portal (NAMASTE - Portal). Based on the software architecture developed under the project further works like Prakriti validation Software been developed and successfully put to usage.
Status	:	Completed (2018).

4.3.13 AYUSH Research Portal.		
Objective	:	To carry out the entrusted work of design, development and maintenance of AYUSH Research Portal (ARP). Periodical uploading of research data published in consented journals under Ayurveda category in AYUSH Research Portal.
Duration	:	 i. Work initiated in 2010 and till 18-03-2015 it was on program mode. ii. In 2015, ARP sanctioned as IMR Project for a period of three years, which was completed on 18-03-2018. iii. Further, it was sanctioned on 28-05-2018 for a period of three years, which is ongoing.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Electronic indexing and abstracting portal for the research articles published in AYUSH Systems of Medicine.

Participating Institute(s) with Principal Investigator Date of Sanction/ Initiation	:	 Dr. Narayana A., Director, National Institute of Indian Medical Heritage, Hyderabad (PI till March, 2018). Dr. Prasad P.V.V., Assistant Director (Ay.), National Institute of Indian Medical Heritage, Hyderabad (PI since May, 2018). 19-03-2015 and 28-05-2018.
Summary	:	AYUSH Research Portal is a first comprehensive electronic indexing and abstracting service for the research articles published in AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha, Homoeopathy and Sowa-Rigpa) Systems of Medicine and allied sciences. The Central Council for Research in Ayurvedic Sciences, New Delhi, Ministry of AYUSH has entrusted the task of software design, development and maintenance of AYUSH Research Portal to National Institute of Indian Medical Heritage (NIIMH), Hyderabad. Accordingly, the Institute has developed the AYUSH Research Portal (ARP), which is launched by the Secretary, Ministry of AYUSH on 18-04-2011. The core content of this Web based portal comprises evidence-based research data published in reputed journals. As on March 2019, there are about 26662 abstracts including some full text of scientific communications have been available in this portal and visits from about 160 countries (of which, 133 countries are with 100% site usage) is recorded. Out of 26662 research abstracts, 19577 abstracts are currently indexed under the category of Ayurveda from more than 570 journals. These abstracts include Clinical research 2668, Preclinical research 10223, Drug research 5043 and Fundamental research and Others 1643.
Remarks if any	:	-
Status	:	Ongoing.

4.3.14 Unani medical literature produced from 13th to 16th century AD.		
Objective(s)	:	To record the composition of Unani literature from 13 th to 16 th century
		and to prepare a comprehensive document (in English language).
Duration	:	1 year.
Nature of the Document	:	Book
publication (Book/ Manuscript/		
Bibliography)		
Participating Institute(s) with	:	Dr. Ashfaque Ahmad, Research Officer (Unani), National Institute of
Principal Investigator		Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	14-01-2016.
Summary	:	The present work details about the account of Unani medical history of four hundred years spanning from 13 th to 16 th century. It consists of descriptions of over 200 books composed by 26 physicians of 13 th century, 17 physicians of 14 th century, 12 physicians of 15 th century, 29 physicians of 16 th century and 8 physicians after 16 th century along with their brief account of life. In order to evaluate the contributions of authors in these periods to the progress of medicine, authentic primary sources were utilized to review their biography and their compositions. Original Arabic and Persian editions of source books/works of many libraries in Indian were referred. Furthermore, pertinent references including books, periodicals and online history-of-medicine resources have been reviewed.
Remarks if any	:	-
Status	:	Published (2017).

4.3.15 Unani medical literature produced between Hippocratic Period (462-370 BC) upto 8th century AD.		
Objective(s)	:	To record the composition of Unani literature between Hippocratic period (462-370 BC) up to 8 th century AD and to prepare a comprehensive
		document (in English language).
Duration	:-	18 months.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	••	Dr. Ashfaque Ahmad, Research Officer (Unani), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	14-01-2016.

Summary	:	The Unani medical literature covers different topics such as medical encyclopedias, epitomes, commentaries, medical poetry, medical monographs, medical therapeutics, dietetics regimen and pharmaceutics. The present work is based on the description of over 200 books written by 30 authors from Hippocratic period (fl. 462 BC) to 8th century. The monograph narrates the details of the works of eminent authors of Unani literature along with their brief account of life. The present work is first attempt of its kind to include all Unani publications of this period in chronological order. The present work will facilitate Unani classical literatures in public domain leading to its global popularity,
		collaboration and intra AYUSH referral.
Remarks if any	:	-
Status	:	Published (2017).

4.3.16 English translation of Abhi Council.	4.3.16 English translation of Abhinavacintāmaṇi and editing of Hindi version of the text published by the Council.		
Objective(s)	:	 Editing of Sanskrit version (of mūla) of the text and Hindi version (of translation) of Abhinavacintāmaņi. English translation, critical and explanatory notes along with indexing of Abhinavacintāmaņi. 	
Duration	:	2 years.	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.	
Participating Institute(s) with Principal Investigator	:	Dr. Sridevi V., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.	
Date of Sanction/ Initiation	:	26-09-2017.	
Summary	:	Abhinavacintāmaṇi (AC) is one of the important source works in Ayurvedic medical literature which represents later phase of Ayurveda. AC is listed in Schedule I of Drugs and Cosmetics Act, 1940. The subject matter of the text arranged in sixty-six chapters consisting about 5340 verses. The present work English translation of Abhinavacintāmaṇi and editing of Hindi version of the text published by Council facilitate correct reading of the text. Bilingual translation of the text and critical and explanatory notes along with indexing will be useful for wider dissemination among the researchers, practitioners, students, academicians, industries, policy makers and scholars of Ayurveda.	
Remarks if any	:	-	
Status	:	Ongoing.	

4.3.17 A chronicle of Dravyaguna: Tangible history based on Paleo-botanical, Archaeological sources.		
Objective	:	To reconstruct systematically the history of usage of medicinal substances from Pre-vedic (2500 BC), Vedic (1500 BC) and later Samhita period (500 BC) based on Paleo-botanical and Archaeological evidences.
Duration	:	1 year.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Saketh Ram T., Research officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/ Initiation	:	02-02-2018.
Summary	:	Dravyaguna deals with the vast materia medica employed for food and medicine in Ayurveda. There is vast amount of literature chronicling the history of usage of drugs based on literary works spread over from Vedic period (1500 BC) till date. It is unfortunate to observe that, the literary legends pertaining to the history of Ayurveda with respect to use of medical substances (herbal, animal and mineral origin), hardly have any supporting archaeological evidences in the current historical literature about Ayurveda <i>Itihāsa</i> . Considering the nature of evidences material available through Paleobotany & other Archaeological data will surely enable reconstruction of History of Ayurveda based on concrete foundations of tangible evidences and to ascertain their relevance within the framework of evolution of Ayurveda from Pre-Vedic, Vedic, and later periods.

${\bf 4.3.18\ Preparation\ of\ hard\ copies\ of\ digitized\ medical\ manuscripts\ of\ Eastern\ India\ (Odisha, West\ Bengal\ and\ Bihar).}$		
Objective(s)	:	To save and preserve the data of digitized medical manuscripts from Eastern India (Odisha, West Bengal and Bihar).
Duration	:	3 years.
Nature of the Document publication(Book/Manuscript/Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Lavaniya V.K., Research Officer (Ay.), CCRAS Hqrs, New Delhi.
Date of Sanction/Initiation	:	07-07-2014.

Summary	:	A project titled "Survey, cataloguing and digitized inventory of medical manuscript of Eastern India (Odisha, West Bengal and Bihar)" was successfully executed by CCRAS under the ACDP Scheme of the then Department of AYUSH and was completed in April 2011. Under this project, Council has digitized 1697 manuscripts/rare books (810 from Odisha, 682 from West Bengal and 187 from Bihar) which were preserved at CCRAS Hqrs. in the form of CDs. As in a period of time, the data stored in CDs may be lost/ corrupted or unreadable due to several reasons, hence it was found necessary to have the data in print form and thus the project has been initiated.
Remarks, if any	:	
Status	:	Completed (2017).

4.3.19 Compilation and documen	tat	ion of classical Sowa-Rigpa formulations.
Objective(s)	:	1. To compile the diverse formulations of Sowa-Rigpa from classical texts.
		2. Documentation of around 1100 formulation as per the classical text of Sowa-Rigpa.
		3. Publication of Sowa-Rigpa Formularies.
Duration	:	Three years
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Padma Gurmet, Research Officer In-charge, National Research Institute for Sowa-Rigpa, Leh.
Date of Sanction/Initiation	:	04-05-2014.
Summary	:	Total 2771 formulations have been compiled from classical works of Sowa-rigpa. Out of 2771, 2675 are compound formulations and 96 are single. These formulations are compiled from fundamental text 'rGyudbZhi' (four tantra). 667 (594 compounds and 73 single) formulations from twenty-seven chapters of subsequent tantra; 2036 compound formulations and 23 single drugs from oral pith instruction tantra; 12 compound formulations from basic tantra and 33 formulations from explanatory tantra.

Status	:	Under editing.

4.3.20 Preparation of hard copies rare books from Karnataka.	an	d transcription of Ayurveda/medical palm leaf manuscripts and
Objective(s)	:	 Transcription of digital images of manuscript folios. Creation of hard copies of these folios in the form of hard bound books.
Duration	:	Two years.
Nature of the Document publication (Book/Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Venkateshwarlu G., Research Officer (Ay.), Regional Ayurveda Research Institute for Metabolic Disorders, Bangalore.
Date of Sanction/Initiation	:	06-12-2014.
Summary	:	Manuscripts have very important and novel approaches, complementary to Ayurvedic principles and practices. There is a need to validate such references and take them for further research. Some manuscripts may also be taken for printing after editing by the experts. 19 manuscripts/ rare books (Out of 23) have been carried out and presented in a book form. The following are the transcripted manuscripts/ rare books, presented in book form: 1. Bopadevakṛta Siddhamantra Prakāśavyākhyā A critical edition 2. Siddhanāgājunīyam 3. Vaidyaśāstradīpikā 4. Vaidyahṛdayānanda 5. Kailāsakāraka I 6. Kailāsakāraka II 7. Rasāyana taraṅgiṇi 8. Rasaśāstragrantha 9. Vaidyaśāstra 10. Pañjikā 11. Sūtrasthānasañjīvanī 12. Yogacintāmaṇi 13. Āyurvedacintāmaṇi, Vol. II 14. Āyurvedacintāmaṇi, Vol. II 15. Pathyāpathyaviveka 16. Vaidyasārasaṅgraha 17. Bālabodhinī Vol. I 18. Bālabodhinī, Vol. II 19. Nāḍītantra

4.3.22 Documentation of effective Marma practices.		
Objective(s)	:	1. Identification and preparation of directory of Marma practitioners.
		2. Documentation of Marma management techniques.
		3. Identifying the special formulations used in Marma cikitsā.
Duration	:	10 months.
Nature of the Document publication (Book/Manuscript/Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Deep V.C., Research Officer (Ay.), National Ayurveda Research Institute for Panchakarma, Cheruthuruthy.
Date of Sanction/Initiation	:	08-03-2018.
Summary	:	Documentation of Marma practices has been completed and the editing work of the videos/ book is in progress.
Remarks, if any	:	-
Status	:	Ongoing.

4.3.23 Marmadarpaṇam – English and Hindi Translation.		
Objective(s)	:	To publish English and Hindi translation of book Marmadarpaṇam (Mirror of Marma or vital points).
Duration	:	One year
Nature of the Document publication (Book/Manuscript/Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Lavaniya V.K., Research Officer (Ay.) and CCRAS Headquarter, New Delhi. Dr. Rakesh Narayanan V., Research Officer (Ay.), CCRAS Headquarter, New Delhi.
Date of Sanction/Initiation	:	04-06-2018.
Summary	:	Marmadarpaṇam is one among the few books published on Marmaśāstra, especially the Kalari (a form of martial art) Marma or Kulabhyasa marma (meaning Marma for abhyāsa or practice in martial arts).
Remarks, if any	:	-
Status	:	Ongoing.

4.3.24 Preparation of Āyurveda C	4.3.24 Preparation of Āyurveda Grantha Sammucchaya – Integrated E-Book Portal		
Objective(s)	:	To prepare Āyurveda E-Book Portal with effective search option(s) covering all primary texts of Āyurveda viz., Bṛhattrayī (Carakasaṁhitā, Suśrutasaṁhitā and Vāgbhaṭa), Laghutrayī (Mādhavanidāna, Śārṅgadharasaṁhitā and Bhāvaprakāśa), important nighaṇṭu (compendia), and other Āyurveda texts mentioned under Schedule 1 of Drugs and Cosmetics Act 1940.	
Duration	:	18 months.	
Nature of the Document publication (Book/Manuscript/ Bibliography)	:	Web Portal and mobile application.	
Participating Institute(s) with Principal Investigator	:	Dr. Sharma M.M., Research Officer (Ay.), CCRAS Headquarter, New Delhi. Dr. Saketh Ram T., Research Officer (Ay.) National Institute of Indian Medical Heritage, Hyderabad.	
Date of Sanction/Initiation	:	22-05-2018.	
Summary	:	-	
Remarks, if any	:	-	
Status	:	Ongoing.	

4.3.25 Preparation of E-book of Al-Qanun fi al-Tibb.		
Objective(s)	:	Preparation of E-book of Al-Qanun fi al-Tibb.
Duration	:	2 years.
Nature of the Document publication (Book/Manuscript/ Bibliography)	:	E-book.
Participating Institute(s) with Principal Investigator	:	Dr. Ashfaque Ahmad, Research Officer (Unani), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/Initiation	:	13-08-2018.
Summary	:	Al-Qanun fi al-Tibb originally written in Arabic language by Avicenna in 1025 AD. The work is a comprehensive encyclopedia of medicine and most influential and monumental treatise in Unani medicine which consists of five volumes.
Remarks, if any	:	-
Status	:	Ongoing.

4.3.26 Implementation and Maintenance of National AYUSH Morbidities And Standardized Terminologies Electronic Portal (NAMASTE - PORTAL)		
Objective(s)	:	To maintain the National AYUSH Morbidities And Standardized Terminologies Portal [renamed as National AYUSH Morbidity and Standardized Terminologies Electronic Portal (NAMASTE Portal)].
Duration	:	3 years.
Nature of the Document publication (Book/Manuscript/Bibliography)	:	Web portal.
Participating Institute(s) with Principal Investigator	:	Dr. Saketh Ram T., Research Officer (Ay.), National Institute of Medical Heritage, Hyderabad.
Date of Sanction/Initiation	:	29-03-2018.
Summary	:	The works related to the maintenance and up gradation of the portal is undertaken through this project.
Remarks, if any	:	
Status	:	Ongoing.

National AYUSH Morbidity And Standardized Terminologies Electronic Portal (NAMASTE Portal)

National AYUSH Morbidity and Standardized Terminologies Electronic Portal (NAMASTE Portal) is a web based portal exclusively dedicated to the centralized collection of morbidity statistics of various health care providing institutions under the all AYUSH systems spread over the country. This portal was formally launched by Shri Narendra Modi, the Hon'ble Prime Minister of India on the occasion of 2nd Ayurveda Day (17th October 2017).

This portal has the potential to revolutionize morbidity statistics data collection and may have a huge impact on the future policy making decision by bringing to light the contributions of various AYUSH systems in the healthcare delivery system of the country.

The core objective of this portal is to accurately project the contribution of various AYUSH systems in the health care sector of the country through centralized data pooling into a common portal.

Main Highlight(s)

Dual coding system incorporating both AYUSH and ICD codes for reporting in the case of A-S-U systems.

Major Benefits:

- 1. Real time morbidity data collection.
- 2. Identification of areas of strengths of the various systems under AYUSH.
- 3. E.H.R. systems integrated with morbidity codes.
- 4. Helpful in regulating the healthcare delivery system in AYUSH systems by providing standardizing diagnostic terminologies, thus overcoming the barrier of the diagnosis being written in Sanskrit-Tamil Arabic languages in case of A-S-U systems.
- 5. The diagnostic codes can serve as a tool for documentation in various other programmes such as outreach activities.

4.3.27 History of inception and development of Homoeopathy in India.		
Objective(s)	:	To prepare comprehensive history of Homoeopathy in India since its inception and consequent developments till date and publish in the form of Monograph.
Duration	:	2 years.
Nature of the Document publication (Book/Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Biswo Ranjan Das, Research Officer (Homoeopathy), National Institute of Medical Heritage, Hyderabad.
Date of Sanction/Initiation	:	14-02-2019.
Summary	:	-
Remarks, if any	:	-
Status	:	Ongoing.

-.....

4.3.28 Preparation of printed copies of digitized medical manuscripts from South India, Madhya Pradesh and Maharashtra.			
Objective(s)	:	To save and preserve the data of digitized medical manuscripts collated from South India, Madhya Pradesh and Maharashtra in print form for posterity.	
Duration	:	2 years.	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.	
Participating Institute(s) with Principal Investigator	:	Dr. Prasad P.V.V., Assistant Director (Ay.), National Institute of Medical Heritage, Hyderabad.	
Date of Sanction/Initiation	:	08-03-2019.	
Summary	:	-	
Remarks, if any	:	-	
Status	:	Sanctioned.	

4.3.29 Expansion of Integrated E books on Rasaśātra.	Е-В	ooks Portal (Āyurveda Grantha Samuccaya) by inclusion of classical
Objective(s)	:	To expand the Integrated E-Books Portal (Āyurveda Grantha Samuccaya) by addition of classical books on Rasaśātra available in public domain. The work will primarily cover original Sanskrit verses and available Sanskrit commentaries of major classical non-copyrighted textbooks of Rasaśātra available in public domain viz., Rasaratnasamuccaya, Rasataraṅgiṇī, Rasamañjarī including those mentioned in Schedule 1 of Drugs & Cosmetics Act 1940 which has not included previously in the portal along with those published by CCRAS/RAV/Ministry of AYUSH so far. The work will enable better literary search on rasa yoga and other Rasaśātra drugs used in Āyurveda.
Duration	:	18 months.
Nature of the Document publication (Book/Manuscript/Bibliography)	:	Web Portal and mobile application.
Participating Institute(s) with Principal Investigator	:	 Dr. Sharma M.M., Research Officer (Ay.), CCRAS Headquarter, New Delhi. Dr. Saketh Ram T., Research Officer (Ay.), National Institute of Indian Medical Heritage, Hyderabad.
Date of Sanction/Initiation	:	20-02-2019.
Summary	:	-
Remarks, if any	:	-
Status	:	Sanctioned.

4.3.30 Ayurveda in Buddhist literature (Tripiṭaka): A medico-historical investigation		
Objective(s)	:	Primary:
		1. To review the concepts of doṣa, dhātu, mala, prakṛti, agni, ojas, manas (mind), ātmā, rasa, guṇa, vīrya, vipāka and mokṣa according to Buddhist as well as different Indian Philosophical Sciences i.e., Darśanaśāstra point of view.
		2. To find out Buddhist philosophical approach to health care, both preventive & curative aspects.
		3. Analysis of Ayurvedic material available in Tripiṭaka, according to the Buddhist point of view.
		4. To do critical (historical /religious/ philosophical background) study of Buddhist literature, particularly Tripiṭaka as well as Ayurveda.
		Secondary:
		1. To explore the hidden knowledge of Ayurveda in the Buddhist literature, particularly in Tripiṭaka.
Duration	:	3 years.

Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Balaji Potbhare, Research Officer (Ay.), National Institute of Medical Heritage, Hyderabad.
Date of Sanction/Initiation	:	08-03-2019.
Summary	:	
Remarks, if any	:	
Status	:	Sanctioned.

4.3.31 Publication of Carakapradīpikā – An important commentary of Carakasamhitā		
Objective(s)	:	To publish Carakapradīpikā commentary of Carakasamhitā along with mūlaśloka of Carakasamhitā.
Duration	:	18 months.
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.
Participating Institute(s) with Principal Investigator	:	Dr. Sharma M.M., Research Officer (Ay.), CCRAS Headquarter, New Delhi. Dr. Lavaniya V.K., Research Officer (Ay.), CCRAS Headquarter, New Delhi.
Date of Sanction/Initiation	:	01-03-2019.
Summary	:	-
Remarks, if any	:	-
Status	:	Sanctioned.

4.4 Collaborative Projects

4.4.1 English translation of most popular Marathi compendium Cikitsā Prabhākara			
Objective(s)	:	To make available an authentic English translation of most popular Marathi compendium Cikitsā Prabhākara along with critical notes and indexing.	
Duration	:	1 years	
Nature of the Document publication (Book/ Manuscript/ Bibliography)	:	Book.	
Participating Institute(s) with Principal Investigator	:	Dr. Abhijit H. Joshi, Acting Registrar, Tilak Maharashtra Vidyapeeth, Pune.	
Date of Sanction/Initiation	:	25-04-2017.	

Summary	:	
Remarks, if any	:	Translation and vetting of the document completed.
Status	:	Under publication.

4.4.2 Hindi translation of the Marathi compendium Cikitsā Prabhākara.			
Objective(s)	:	Primary objective (s)	
		To make authentic translation of most popular Marathi Compendium 'Cikitsā Prabhākara' in Hindi. **To make authentic translation of most popular Marathi Compendium **Compendium of the compendium of the	
		Secondary objective (s)	
		1. Authentic translation of the book in Hindi.	
		2. To include critical notes wherever required.	
		3. Preparation of appendix of botanical name wherever applicable.	
Duration	:	1 year.	
Nature of the Document publication (Book/Manuscript/Bibliography)	:	Book.	
Participating Institutes with PI	:	Dr. Abhijit H. Joshi, Acting Registrar, Tilak Maharashtra Vidyapeeth, Pune.	
Date of Sanction/Initiation	:	14-02-2019.	
Summary	:		
Remarks, if any	:	-	
Status	:	Sanctioned.	

CCRAS- Research Management and Information System (RMIS)

Apart from research projects, CCRAS carries out several works in program mode. Research Management and Information System (RMIS), is one among such programs, which is developed to provide guidance/ suggestions to M.D. / Ph.D. (Ay.) scholars for the conduct of research studies.

The quality of research may be enhanced by appropriate formulation of research hypothesis/ research idea in the initial stage and executed through well planned study design and statistical proposition. To achieve this, the Council being apex body in the Country for formulation and co-ordination of research in Ayurveda, has initiated a dedicated 'Research Management Information System' (RMIS) at National Institute of Indian Medical Heritage, Hyderabad and CCRAS, Hqrs for offering suggestions/ inputs related to planning/designing/protocol related sampling and statistical issues etc as required by M.D./M.S. and Ph.D. scholars and guides across Ayurvedic Institutes/ Colleges in the country.

The council will offer suggestions and guidance on various steps /aspects related to planning, designing of Postgraduate and PhD. research work viz.

- 1. Formulating research question/hypothesis
- 2. Trial design.
- 3. Setting of Objectives
- 4. Sampling/samples size etc.
- 5. Selection criteria
- 6. Investigations required (for diagnosis and assessment)
- 7. Assessment criteria/methods
- 8. Suggestion on feasibility of interventions identified for study
- 9. Ethical issues
- 10. Suggested useful literatures relevant to proposed study
- 11. General comments on the synopsis/research plan
- 12. Data analysis and interpretation (of completed projects) etc.

CHAPTER 5

MEDICO-HISTORICAL LIBRARY

Libraries play an important part in the advancement of medical knowledge and act as a link between the past and present. Libraries dedicated to history of medicine explain the status, progress and approach towards medicine in different periods of time. The library located at National Institute of Indian Medical Heritage (NIIMH), Hyderabad, an Institute functioning under CCRAS is one such specialized Medico-historical library with a significant collection of books and journals on history of different systems of medicine. It is the only one of such kind in entire South-East Asia. This library has been planned with two clear objectives:

- 1. Promotion of knowledge of history of medicine among students, teachers of the medical colleges in India and abroad and also among the interested public.
- 2. Promotion of research into history of medicine in India during the ancient, medieval and modern periods and elucidation of the inter-relations between the evolution of medicine in India and the growth of medicine in other centres of civilization in ancient and medieval periods.

The collections in the library at NIIMH, Hyderabad are arranged under four sections viz., Manuscript section, Rare Book section, Reference section and Journal section.

1. Manuscript Section:

CCRAS-NIIMH, Hyderabad maintains repository of manuscripts of Āyurveda, Siddha and Unāni. The collection includes palm-leaf and paper manuscripts in different languages viz., Sanskrit, Telugu, Tamil, Malayalam, Urdu, Arabic, Persian etc. There are about 283 manuscripts, of which 170 pertaining to Āyurveda, 107 to Unani and 6 to Siddha System of Medicine.

2. Rare book Section:

One of the greatest strengths of the CCRAS-NIIMH, Hyderabad library is its richest collection of rare books. Because of its rich and valuable treasure of books/ works on Āyurveda, other systems of medicine, history of Medicine and other related Sciences, CCRAS-NIIMH, Hyderabad often serves as great resource and referral Institute for scholars engaged in the Medico-historical & Literary research in AYUSH Systems of medicine and Biomedicine.

3. Reference Section:

There are about 11069 books (including rare books) on history of different branches of Modern medicine and several classical works/ books on Indian and European medicine. Apart from main collection of books, library is having different bibliographies, catalogues, descriptive catalogues, directories, encyclopedia, indices, travelogues, books on art, sculpture, archaeology, epigraphy, history of science and allied subjects, World medicine, Indian medicine, history and culture of world and India, non-medical literature, reprints and periodicals etc.,

Journals Section:

The journal section in the library is having valuable collection of old and rare journals related to Modern medicine, Ayurveda and related sciences etc. Presently, more than 1600 current/ back volumes of the journals are available in library.

All the above mentioned literature is made available for reference purpose to historians, research scholars, Post-graduate students and academic faculty from India and abroad.

Apart from NIIMH library, the library of CCRAS Hqrs, New Delhi is having collection of rare/ important manuscripts, books on Ayurveda, other allied sciences and periodicals. There are about 5500 books pertaining to Ayurveda are currently housed in the library. The library provides referral services to students, researches of Ayurveda and allied sciences.

Shri.P.S.Gatowar (in the middle) Hon'ble Minister for Health & Family Welfare, Govt. of India, New Delhi (22-7-1994).

Dr. V.M. Katoch, Chairman; Dr. D. C. Katoch, Member; Prof. Dr. Bhushan Patwardhan, Member and Prof. Vd. K.S. Dhiman, Director General, CCRAS & Member Secretary of High-level Committee constituted by Ministry of AYUSH to review the activities of CCRAS and its Peripheral Units has visited NIIMH, Hyderabad on 26-10-2016. During the visit, the committee has gone through the collection of manucsripts and rare books in the library.

CHAPTER 6

MEDICO-HISTORICAL MUSEUM

The Medico-historical museum located in CCRAS-National Institute of Indian Medical Heritage (NIIMH), Hyderabad provides resource materials for historians, scientists and personnel who are interested in study and documentation of the historical aspects Āyurveda, Yoga & Naturopathy, Unāni, Siddha, Sowa Rigpa and Homoeopathy (AYUSH) as well as Modern Medicine.

The museum is considered as first of its kind in India and began with display of private collection of medical artifacts collected by Dr. D.V. Subba Reddy, Founder Director of the Institute way back in 1956 in Andhra Medical College, Visakhapatnam. Subsequently, at Hyderabad dedicated galleries have been arranged for showcasing the same. In later part, these collections have become nucleus for further development to its present shape. The Primary objectives of the museum are:

- 1. Sensitization of common public and students regarding Indian medical heritage.
- 2. Research and publication on the topics pertaining to Indian medical heritage based on primary and secondary evidences, various tangible and intangible resources.

The museum showcases collection of artifacts pertaining to AYUSH systems viz., Āyurveda, Yoga & Naturopathy, Unani, Siddha, Homoeopathy & Sowa Rigpa, and miscellaneous collections from Biomedicine and Traditional and Complementary Medicine (TCM) practiced elsewhere in the world. The collections in the museum can be broadly categorized as follows:

1. Archaeological Collections

Replicas of hospitals/ pharmacies/ temples/ places of worship of healing deities, medical instruments, vessels, utensils, materials pertaining to human/ animal subsistence, medicines etc.

2. Inscriptions

Estampage of inscriptions and replica (s) of inscriptions, statues, pillars etc., bearing medical information.

3. Historical Records

Records related to grants of physicians, construction of hospitals and allied centers.

4. Image/Statuettes Gallery

Portraits/statues of eminent physicians, founders of medical systems, scenes, thematic pictures/paintings/schematic diagrams pertaining to Indian medical heritage etc.,

5. Manuscripts and Rare books

Display of palm-leaf and paper medical manuscripts and replicas in photographs/ digital form & printed rare/ out of print books.

The museum in NIIMH, Hyderabad is housed in two halls located in the third and fourth floor of Institute's building. The Hall-1 has collections pertaining to Āyurveda, Yoga, Naturopathy, Siddha etc.

The Hall-2 has collections pertaining to Unāni System of Medicine, Homoeopathy and miscellaneous collections from Biomedicine, allied disciplines, Traditional and Complementary Medicine practiced elsewhere in the world etc.

Fig. 14 (a). Medico-historical museum, NIIMH, Hyderabad (Hall 1).

Fig. 14 (b). Medico-historical museum, NIIMH, Hyderabad (Hall 2).

Some of the objects displayed in the museum are:

Āyurveda

• Replicas of ancient surgical instruments (made of Stainless steel) as described in Ayurvedic texts.

- Models of Lord Dhanvanatri, Lord Buddha, physician Jīvaka, pharmacy in ancient India etc.
- Portraits of Ācārya Suśruta, Śārngadhara, Cakrapānidatta, sage Nāgārjuna etc.
- Paintings of cranial operation by vaidya Jīvaka; preparation of a corpse for dissection; learning operative procedures in ancient times; lord Buddha nursing the sick, Aśvin vaidya providing artificial limb to Visphala, vaidya Parahita removing thorn struck in the snake's throat etc.
- Palm-leaf manuscripts of Vaidyacintāmani, Basavarājīyamu etc.
- Rare books of Nāvanītaka, Śarabharājīyamu, Hāritasamhitā etc.
- Phanigiri pillar Ikṣvāk inscription (3000-4000 A.D.) mentioning about erection of a pillar containing the Dharmacakra by the chief physician (Aggrabhiṣaja) Dhemasena.

Yoga

- Portrait of sage Patañjali.
- Photographs of sculptures based on different yoga postures.
- Poetic collection of Yogi Vemana in Telugu showcasing the Hathayoga and Rājayoga traditions.

Siddha

- Manuscripts of Siddha.
- Photographs of eminent Siddhars.

Unani

- Dar-ul-shifa (House of Cure).
- Unani and Hindu physicians attending the sick prince Qutub Shah.
- Unani Medical manuscripts.

Homoeopathy

- Bust size bronze sculpture of Dr. Samuel Hahnemann, Father of Homoeopathy System of Medicine.
- Portrait of Dr. Samuel Hahnemann
- Miscellaneous collections related to homoeopathy.

Modern Medicine

- Rare Photographs of Hyderabad Chloroform Commission, 1889.
- Replica of original fever chart prepared by Charles Donovan, who discovered *Leishmania donovani*, the causative organism of visceral Leishmaniasis (Kala-azar).
- 'The Anatomy of the Arteries of the Human body' with 87 lithographic drawing plates, published by Taylor and Watson, London in the year 1844.
- Medical education in Hyderabad under Nizam's rule which includes collections of original certificates of Mohd. Usruph & Mohd. Hyder (first batch medical student of Hyderabad Medical

School), painting of court of Nizam IV Dr. Maclean teaching in the medical school with the help of Urdu translator Dr. Miss Clara Swain.

Other collections related to Medicine/ History of Medicine

- Portrait and memorabilia of Dr. D.V. Subba Reddy, Founder Director, NIIMH, Hyderabad.
- Evolution of medicine in world context.
- Introduction of western medicine in India.
- Parke-Davis paintings of history of medicine.
- Medical Philately (medical theme on postage stamps).

After creation of new museum facility at the current premises, the CCRAS-NIIMH, Hyderabad, has initiated the process of collection of objects through special drive across the country from educational institutes of AYUSH, eminent physicians, historians etc. The response to the drive is encouraging and the museum is being updated with new collections from time to time and exhibiting the existing collection after appropriate preventive and curative conservation.

Further, the museum operates an in-house manuscript conservation lab with fumigation chamber, manual and chemical conservation sections. It is meant for preventive and curative conservation of medical manuscripts and rare books collection of Institute's library. The museum in tandem with the library is serving as pivotal archival repository for entire AYUSH Systems.

Fig. 15. Replica of stone inscription on grant to Vaidyavidyādhara Bhīma (1200-1300 A.D.) Language: Sanskrit; Script: Telugu; Lines: 65 Short lines.

Replica of stone inscription in the K.B. Museum of Government of Telangana at Golconda fort near Hyderabad. It is published in the Corpus of Inscriptions in the Telangana Districts, Part 4 (1973). According to the note of the editor on the inscription, it refers itself to the gift of 3 khaṇḍrika of wet land and some marturs of dry land and one flower garden to Bhīma called as Vaidyavidyādhara (one possessing the knowledge of or embodiment of medical science).[Ref: Rama Rao B., Medical illusions in some inscriptions of Andhra Pradesh. Bulletin of the Indian Institute of History of Medicine. 1975; 5 (4): 198-206].

CHAPTER 7

......

BOOKS, MONOGRAPHS AND JOURNALS

Central Council for Research in Ayurvedic Sciences (previously known as Central Council for Research in Ayurveda and Siddha and Central Council for Research in Indian Medicine and Homoeopathy), New Delhi has published several books and monographs under Literary Research Program in past fifty years. As on date, the Council has published 77 books/ works which are arranged under following categories:

- 1. Books/ works on editing, translation and critical editions of Āyurvedic texts based on manuscripts and rare books.
- 2. Descriptive catalogues of manuscripts of Āyurveda, Siddha, Unāni, Sowa Rigpa etc.
- 3. Works on basic and fundamental concepts of Ayurveda.
- 4. Works on Technical terminologies in Ayurveda.
- 5. Research databases.
- 6. Reports of the projects sponsored under Extramural Research scheme of Ministry of AYUSH (formerly known as Department of AYUSH) and Intramural Research Scheme/ Research policy of CCRAS.

7. Other Publications

The works on editing, translation and critical editions of Āyurvedic texts taken up and published by CCRAS are unique and made a significant contribution in Āyurvedic medical literature. It is to make a special mention that, apart from Sanskrit manuscripts, the medical manuscripts/ books available in other Indian languages and scripts viz., Oriya (Cikitsārṇava, Pathyāpathyaviniścaya and Abhinavacintāmaṇi); Telugu (Basavarājīyamu and Rasapradīpikā); Malayalam (Sahasrayoga and Vaidyamanoramā); Granth (Nānāvidhavaidyam etc.) are collected from Manuscript repositories/ Institutes and transcribed into *Devanāgar*ī for wider accessibility. Majority of these works were translated into Hindi/English/Tamil by Council and the translated versions facilitated global readership and great acceptance from Āyurvedic fraternity.

The metadata of the manuscripts provided in the nine descriptive catalogues published by Council is very exhaustive and informative. Metadata of about 2086 Āyurveda, 598 Siddha, 542 Unāni, 628 Sowa-Rigpa, 49 Yoga and 179 other manuscripts is presented comprehensively in more than 44 fields. These published descriptive catalogues explore the rich literary heritage of AYUSH Systems of Medicine, status of conservation and need for the retrieval and future research. Apart from this, the descriptive catalogue(s) published from CCRAS-National Institute of Indian Medical Heritage (NIIMH), Hyderabad, has provided metadata of 1336 rare books under 18 fields.

Ayurveda Encyclopedia and Standardized Ayurveda Terminologies (SAT) are exclusive works on technical terminology in Āyurveda. Ayurveda Encyclopedia published in three parts contains description of about 3000 Ayurveda technical terms under ten fields along with authentic references, which provides

through knowledge on correct usage of the terms. Whereas, Standardized Ayurveda Terminologies (SAT), published in two volumes, is a compilation of 14965 technical terms derived from all the major classical books/ works on Āyurveda.

Research database on Ayurveda, Siddha, other Traditional Medicine and related Sciences published in 4 volumes is a compilation of research outcomes of M.D. / Ph.D. (Ay.) & (Siddha) theses and published research articles, which establishes the evidence basis for therapies of Āyurveda, Siddha and other Traditional medicines.

The research outcomes of CCRAS-Intramural Research Projects (IMRs) are published by the Council from time to time. As on date, under Literary Research Program, documents on seven IMR Project reports have been published which provides better understanding on exploration of Veterinary practices in Āyurveda; evolution of Āyurvedic Ophthalmology (Āyurvedīya Netrarōgavijñāna) from ancient to modern period; details the history and accounts of Unani medical literature during from Hippocratic period to 1600 AD century and emphasized the role of diet, daily regimen, seasonal regimen, good conduct etc., in maintaining the positive health.

Apart from publication of books and monographs, the Council has taken major initiative in bringing out electronic version of important treatises (Samhitā), lexicons/ compendia (Nighaṇṭu) of Ayurveda; Pharamacopoeia and Formulary of Āyurveda and Siddha for easy accessibility and to serve as search tool. These e-books are developed by CCRAS- National Institute of Indian medical Heritage, Hyderabad by using inhouse technology and are accessed by many scholars of Āyuveda and other related Sciences and received a great appreciation from literary, academic and scientific communities across the globe.

Besides, publication of books and monographs, the Council publishes three research journals viz., Journal of Research in Ayurvedic Sciences (JRAS), Journal of Drug Research in Ayurvedic Sciences (JDRAS) and Journal of Indian Medical Heritage (JIMH) for disseminating the research findings.

7.1. Details of books published under Literary Research Program

7.1.1 Editing, translation and critical editions of Ayurvedic texts based on original manuscripts and rare books: 39

S. No.	Name of the Text/ Work	Year of Publication
1	Cārucaryā	1974
	(Sanskrit text)	
	Cārucaryā by Bhoja Rāja (A medieval work on personal hygiene), edited by Rama Rao B., Indian Institute of History of Medicine, Central Council for Research in Indian Medicine and Homoeopathy, New Delhi.	

S. No.	Name of the Text/ Work	Year of Publication
2	Bhelasamhitā	1977
	(Sanskrit text)	
	Bhelasamhitā (Maharṣipunarvasorātreyasyāntevāsinā Bhelācāryeṇa praṇītā), edited by Venkatasubramania Sastri V.S. and Raja Rajeswara Sharma C., Central Council for Research in Indian Medicine and Homoeopathy, New Delhi.	
3	Bheṣajakalpa	1977
	(Sanskrit text with critical edition)	
	Bhesajakalpaḥ (Bhāradvājapraṇītaḥ), edited by Venkatasubramania Sastri V.S. and Raja Rajeswara Sharma C., Central Council for Research in Indian Medicine and Homoeopathy, New Delhi.	
4	Aṣṭāṅgasaṅgraha, Uttarasthāna, Part-II.	1988
	(Sanskrit text with Sanskrit commentary- critical edition)	
	Aṣṭāṅgasaṅgrahaḥ- Induvyākhyāsahitaḥ,Uttarasthānam, Bhāga-2, edited by Pandit Rao D.V. and Ayodhya Pandey under the guidance of Thakur V.J., edited and coordinated by Pandey V.N., Mahendrapal Simha Arya, Sharma K.D., Ayodhya Pandey, Sharma K.D., and Ganesh Kumar Shukla, Central Council for Research in Ayurveda and Siddha, New Delhi.	
5	Śabdacandrikā	1989
	(Sanskrit text)	
	Cakrapāṇidatta viracitā - Śabdacandrikā, edited by Priyavrat Sharma, Indian Institute of History of Medicine, Central Council for Research in Ayurveda and Siddha, New Delhi.	
6	Sahasrayoga	1990
	(Sanskrit text with Hindi translation)	
	Sahasrayoga, Hindi translation by Pandit Rao D.V. and Sarada Nair, edited by Mahendrapal Simha Arya, Pandey V.N., Mishra S.K. and Sacchidananda Tiwari, Central Council for Research in Ayurveda and Siddha, New Delhi.	
7	Aṣṭāṅgasaṅgraha, Sūtra, Śārīra and Nidāna sthāna, Part- IA.	1991
	(Sanskrit text with Sanskrit commentary- critical edition)	
	Aṣṭāṅgasaṅgrahaḥ- Induvyākhyāsahitaḥ, Sūtraśārīranidānasthānam, Bhāga - Prathama (Ka), edited by Pandit Rao D.V. and Ayodhya Pandey under the guidance of Thakur V.J., edited and coordinated by Pandey V.N., Mahendrapal Simha Arya, Ayodhya Pandey and Sacchidananda Tiwari, Central Council for Research in Ayurveda and Siddha, New Delhi.	

S. No.	Name of the Text/ Work	Year of Publication
8	Aṣṭāṅgasaṅgraha, Cikitsā and Kalpa sthāna, Part- IB.	1998
	(Sanskrit text with Sanskrit commentary- critical edition)	
	Aṣṭāṅgasaṅgrahaḥ- Induvyākhyāsahitaḥ- Cikitsākalpasthānam, Bhāga-Prathama(Kha),edited by Pandit Rao D.V. and Ayodhya Pandey under the guidance of Thakur V.J., edited and coordinated by Hemaraj Goyal, Sharma K.D. and Ayodhya Pandey, Central Council for Research in Ayurveda and Siddha, New Delhi.	
9	Abhinavacintāmaņi	1999
	(Sanskrit text) Mahāmati Bhagavāna Cakrapāṇidāsa kṛta Abhinavacintāmaṇi, transcribed from Oriya to Devanāgarī by Prem Kishore, Sudarshana Sharma and Madhava Candra, Central Council for Research in Ayurveda and Siddha, New Delhi.	
10	Dhanvantarisāranidhi	1999
	(Sanskrit text)	
	Dhanvantarisāranidhiḥ, transcribed from Tamil to Devanāgarī by Padmanabha Sharma P. M. and Varadarajan T.V., Central Council for Research in Ayurveda and Siddha, New Delhi.	
11	Nānāvidhavaidyam	1999
	(Sanskrit text)	
	Nānāvidhavaidyam, transcribed from Tamil to Devanāgarī by Padmanabha Sharma P. M. and Varadarajan T.V., Central Council for Research in Ayurveda and Siddha, New Delhi.	
12	Netraprakāśikā	1999
	(Sanskrit text) Netraprakāśikā, transcribed from Tamil to Devanāgarī by Padmanabha Sharma P. M. and Varadarajan T.V., Central Council for Research in Ayurveda and Siddha, New Delhi.	
13	Netraroganidānam	1999
	(Sanskrit text) Netraroganidānam, transcribed from Tamil to Devanāgarī by Padmanabha Sharma P. M. and Varadarajan T.V., Central Council for Research in Ayurveda and Siddha, New Delhi.	
14	Pathyāpathyaviniścaya	1999
	(Sanskrit text with Hindi translation)	
	Mahāmahopādhyāya Viśvanātha Seṇa kṛta - Pathyāpathya viniścayaḥ, transcribed from Oriya to Devanāgarī and Hindi translation by Prem Kishore and Padhi M.M., Central Council for Research in Ayurveda and Siddha, New Delhi.	

S. No.	Name of the Text/ Work	Year of Publication
15	Cārucaryā (Sanskrit text with Hindi translation) Bhojarājakṛta Cārucaryā (Vaiyaktika svāstha vijñāna para madhyakālīna kṛti), Hindi translation by Ganesh Shukla, Central Council for Research in Ayurveda and Siddha, New Delhi.	2000
16	Śataślokī(Sanskrit text with Tamil translation)Avadhānasarasvatī viracitā - Śataślokī, transcribed from Tamil to Devanāgarīand Tamil translation by Sharma M. P. and Varadarajan T.V., Central Council forResearch in Ayurveda and Siddha, New Delhi.	2001
