

## IMPORTANT AYURVEDIC MEDICINAL PLANTS OF BUNDELKHAND USED TRADITIONALLY

S.N. Pandey<sup>1</sup>, R.S. Dixit<sup>2</sup> and R.P. Sharma<sup>3</sup>

Received on 26.3.1995

*The paper deals with important Ayurvedic medicinal plants, used traditionally in Bundelkhand area. These commonly available plants have been found described as useful for the treatment of general weakness, anaemia, dis-orders of gastrointestinal tract and tendency of abortion. Some drugs have also been described which are found effective to promote lactation as well as prevention and cure of common minor infantile disorders. The paper comprises description of 22 important Ayurvedic drugs along with their mode of administration.*
