

GOOD MANUFACTURING PRACTICES IN THE INDIAN SYSTEM OF MEDICINE — A PHARMACOGNOSIST PERSPECTIVE

V. Gopal

Interest in the Indian System of Medicine (ISM) has increased enormously over the last quarter century. World wide the general public has become increasingly interested in ISM medicine and has been acquiring the same from a plethora of various retail outlets. Parallel with this, considerable legislation has been introduced to control the sale, quality and efficacy of such products. One among these recent legislations is the introduction of Good Manufacturing Practices (GMP) in ISM.

Principal Incharge and Head of the Pharmacy Division, Mother Theresa Institute of Health Sciences (A Government of Pondicherry Institution) Pondicherry-605 006.

This paper was presented in the Seminar on the Role of Good Manufacturing Practices in the Development of ISM Drugs held on 23rd and 24th April 2001 at CRI (Ay.) Kolkata.
