

## STANDARDISATION STUDIES ON TWO AYURVEDIC DRUGS

A. Saraswathy

(Received on 18.12.2001)

*Brahmi Ghrta and Vallarai which are prescribed for mental disorders have been analysed for laying down pharmacopoeial standards. Two samples of vallarai tablets procured from IMPCOPS and Chennai drug market respectively were subjected to similar studies and data compared. HPTLC finger print of the drugs were also evolved. The effect of packing materials on the stability and quality of brahmi ghrta when stored under different conditions was also studied. The data presented can be considered for fixing standards to these drugs.*
